FLIP PPT PRO

Create Professional flipping book with PPT files

About Flip PPT Pro

Often design PowerPoint documents (reports, presentations) for business or personal purpose? Flip PPT Professional will give you more effective and amazing elements to produce consulting quality documents. The software Flip PPT Pro is helping you to convert PPT presentations into Flash based publications, with real page-flipping animation and sound. Moreover, you are enabled to add many kinds of objects into PPT slides, MP4, FLV movies, YouTube videos, MP3 music audios, hyperlinks, email addresses, internal page links, image slideshow and so on. Bring more interactive and wonderful feeling to your presentations!

Note: This product is distributed on a "Try before-you-buy" basis. All features described in this documentation are enabled. The registered version doesn't insert a watermark in your generated page-flipping eBooks.

Product features

1. Convert PPT to Adobe© Flash® based page-flipping eBooks.
2. Batch convert multiple PPT files to multiple page-flipping eBooks.
3. Import hyperlinks with PPT, include web link, page link, email link.
4. Import text so text is searchable, define the minimum search characters.
5. Define image or text more, quality and size for pages.
6. Publish online directly with using FlipBuilder Upload Service.
7. Build digital bookstore to store and manage eBooks.
8. Output in different formats: HTML, EXE, Zip, Mac App, Mobile version and Burn to CD.
 - o HTML allows you to upload to a website to be viewed online (with title, keywords and other metadata defined).
 - o EXE (with setting title, icon and open window size) and Zip allow you to send to your user by email to be viewed on their computer.
 - o App (Mac Application) is executable application can be run on Mac.
 - o Mobile version is to output HTML flipbook which can be viewed on mobile devices via Browsers.
 - o Burn to CD allows you to burn to disk so you can send your user physical media for viewing on their computer.
9. Apply a pre-designed template and animated scene, more free templates online.
10. Preview the output effect instantly.
11. Show Assistant and scrolling tips in your book, record or embed sound directly.
12. Add HTML Title in Float template which can be clicked to visit webpage online.
13. Add Image or Flash logo to insert before Book Title in Float template.
14. Define book proportions, margin size, shadow manually.
15. Replace existing icons on toolbar by editing Icon Flash file.
16. Add new icons into toolbar with calling new actions.

17. Set background color and image.
18. Insert background music either for continuous play (loop) or for a set duration.
19. Set eBook reading from right to left (for Right-to-Left languages such as Arabic).
20. Choose hard cover for eBooks.
21. Set fonts for Flash and Bookmark, Search panel.
22. Set Page Number Box to show at top or bottom in Float, set start page number.
23. Edit pages with shapes, text, links, images, videos, flash or sound files.
24. Add Button on pages to open link page, call Javascript action, play Flash/Video in pop-up Window.
25. Add page, delete page, re-order and sort page in Page Edit window.
26. Copy projects from one page to another or all the other pages.
27. Define the language for your published page-flipping eBook (support multi-language show and switchable).
28. Add password to protect your page-flipping eBook.
29. Different kinds of render engine for choice to avoid distortion for some special PPT files: SWF, GPL Ghostscript or Inner Library.
30. Add Google Analytics Support.
31. Add watermark image or SWF to show on print out pages.
32. Add Help config to manually define content with using Image or SWF.
33. Add Single/Double Page view.
34. Add Minime Style to show page-flipping eBooks without toolbar.
35. Set permissions for downloading, printing, social sharing, Home, About button and more.
36. Edit bookmark manually and set bookmark panel to show on left or right side.
37. Export and save settings for future uses.
38. Save and Load your project.

Page-flipping eBook features

With the page-flipping ebook you have created, your user will be able to:

1. Show flip effect on the page corner at the very beginning.
2. Drag the corner to flip a page.
3. Click page shadows to flip a page.
4. Input password to unlock encrypted pages.
5. Follow the scrolling tips and listen to the audio you recorded for assistant.
6. Single/Double Page view.
7. View with pre-loading needed pages to open quickly, do not need to wait all pages loaded.
8. Use button to control page, such as Previous, Next, First, Last etc.
9. Flip pages automatically.
10. View flipbook repeatedly.
11. View page-flipping ebook full screen.
12. Use thumbnail to navigate.
13. Search whole eBook.
14. Print out the whole ebook or a range of pages directly (support to clip area on pages and then print).
15. Download the uploaded page-flipping eBook from web site directly.
16. Double-click to zoom in or zoom out.
17. Zoom in/ out both pages.
18. Share eBook url via email.
19. Open or close page-turning sound.
20. Open to a certain page in Browser by adding a suffix like this:
index.html?pageIndex=4.
21. View output page-flipping eBook on iPad, iPhone and Android devices (slide single pages mode supported).

Quick Start

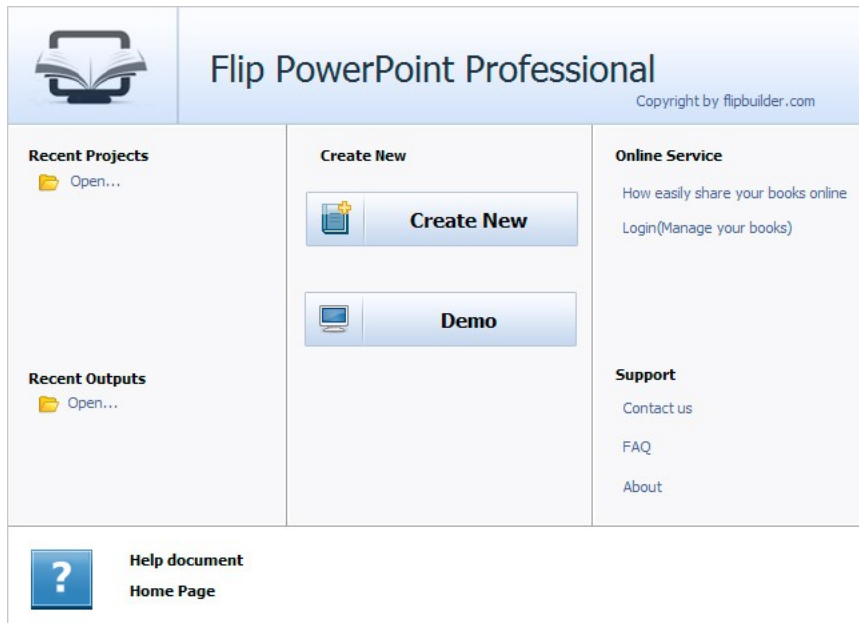

1. Launch the application via the desktop shortcut ;
2. Click "Create New"  and select template and define project path;
3. Select PDF to import and click "Import Now" icon  to enter into template setting interface;
4. Define parameters for eBooks, such as Book, Tool Bar, Bookmarks, and then click the "Apply Change" icon ;
5. Click "Edit Pages" to add objects like links, images, sounds, videos on pages;
6. Click "Upload Online"  or "Convert to Flipping Book"  to output created page-flipping eBook.

Interfaces

There are some main interfaces you will see while using Flip PPT Pro as below shows: Project Panel, Application Options, Import PPT, Template Settings, Edit Pages, Language Option, Output, Batch Convert and Upload Online. You can enter into each page to get clear instructions for every detail option.

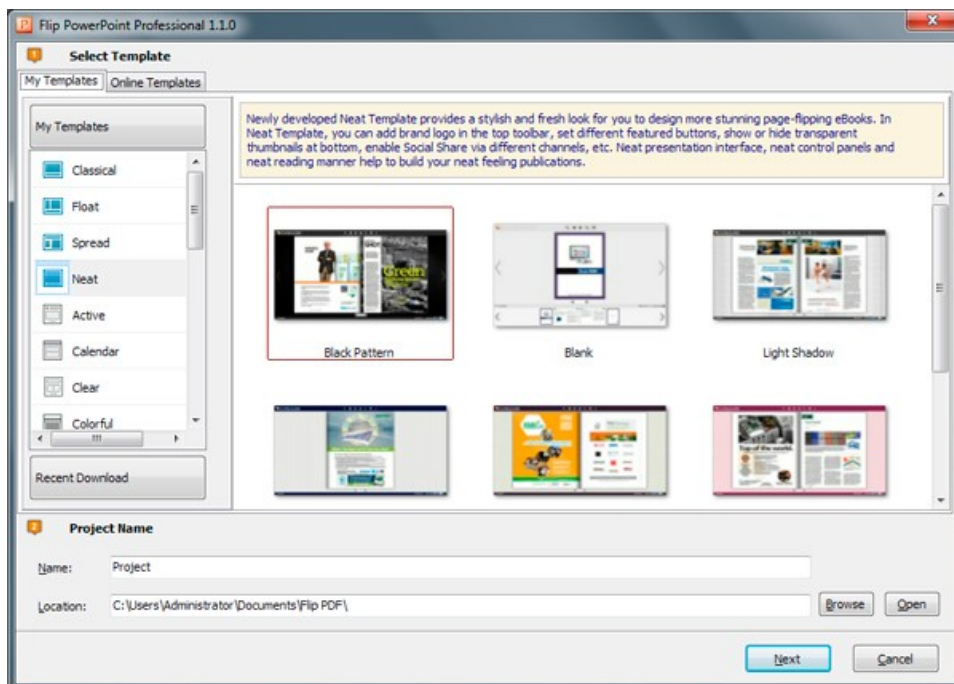

I. Project Panel

In the project control panel, you can view and open recent projects and output flipbooks, create new project or just view demo project. Besides, you can view Online Service details, get support, check "About" and "Update" info.

II. Import PPT Interface

Click "Create New" to build your own project, select template, define project name and location.

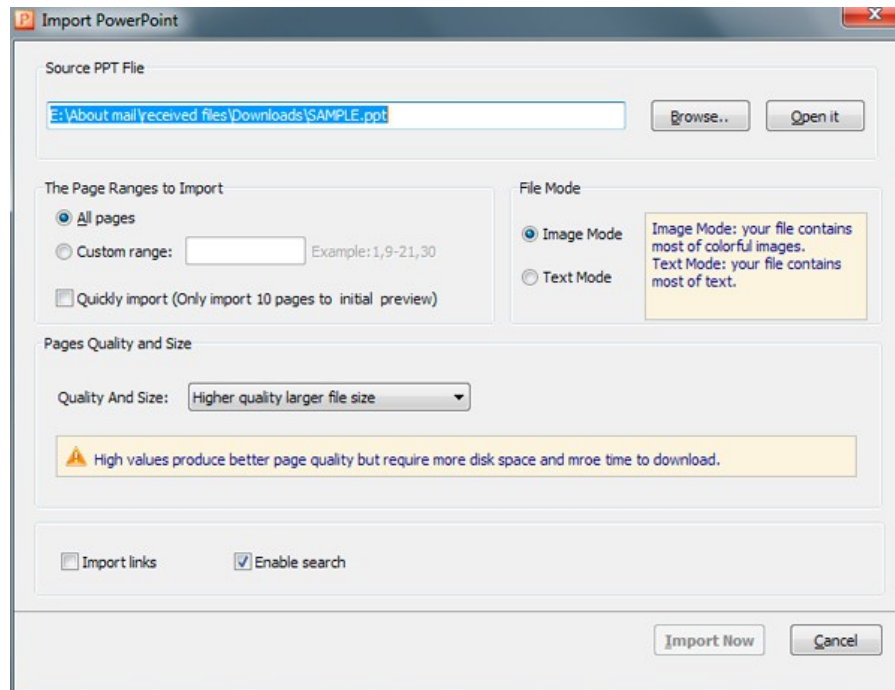

PPT to Professional Page-Flipping eBook Utility User Document

You can select Template and Theme from the list, or go to "Online Templates" panel to download more templates and themes to use in Flip PPT Pro. More templates and themes online:

<http://www.flipbuilder.com/templates-themes/index.html>.

Then click "Next" to enter into PPT Import interface:

1. Source PPT File:

Click this icon to open the PPT file you want to convert;

View content of added PPT file to clarify before converting.

2. The Page Ranges to Import:

Convert all pages to page-flipping eBook;

2-5

Example: 1,3,5,9-21

Convert defined range page;

Just preview effect on first 10 pages.

3. File Mode

4. Page Quality

There are five types of "Quality And Size":

5. Other Options:

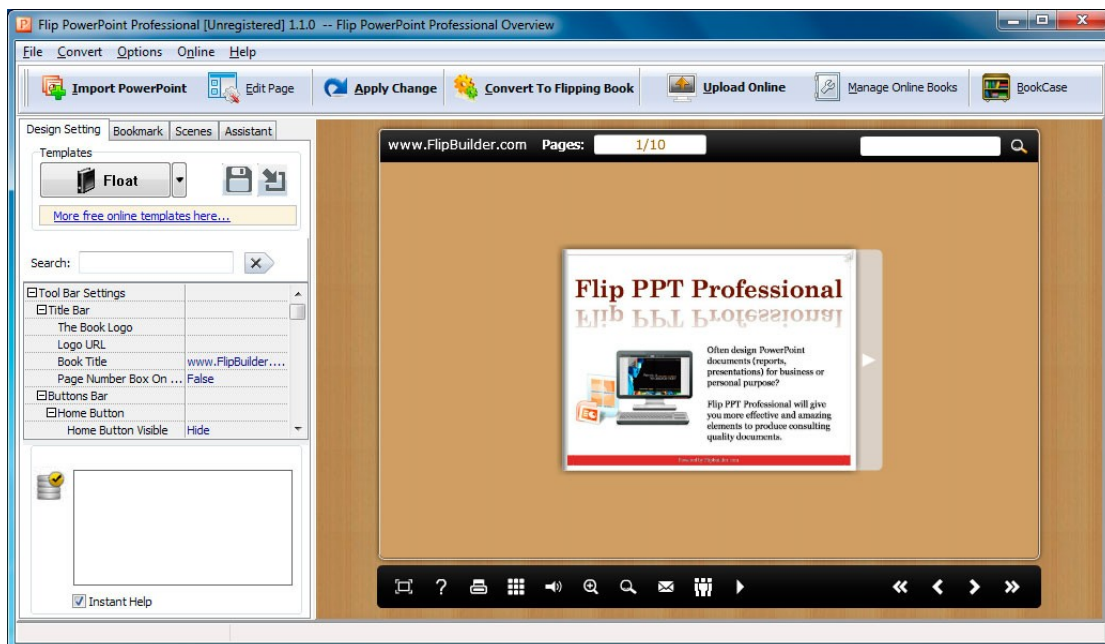

If your PPT file has links, check this to enable in flipbook;

Check this option to enable search functionality in created flipbook.

At last, click  icon to enter into template setting interface.

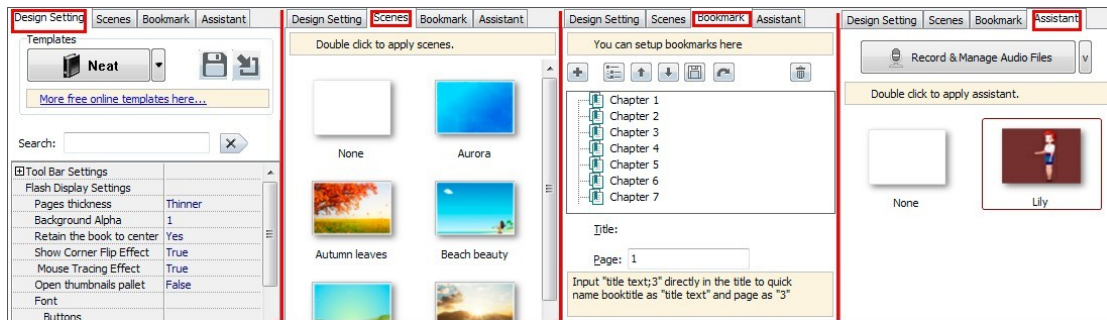

III. Template Settings Interface

After importing PPT, you will see the main Template Design and Preview interface. Four tabs in the design panel for you to design template, choose scene, define bookmark and edit content for assistant.

PPT to Professional Page-Flipping eBook Utility User Document

1. Design Setting

The design setting interface contains below main parts: **Choose Template, Tool Bars Settings, Flash Display Settings and Flash Control Settings.**

(1). Choose Template

Although you have selected template before importing PDF, you can also change to other

templates. Just click  icon to select templates from Template Selection interface, or download Online Templates to use.

 Click this icon is to save current settings as a TXT file for later uses;

 Click this icon is to import stored setting file at once.

There are 4 different templates at present: Classical, Float, Neat and Spread. You can also click "Online Templates" to install more templates to use. Each template contains some unique settings. More templates and themes online:

<http://www.flipbuilder.com/templates-themes/index.html> .

(2). Tool Bar Settings

[-] Tool Bar Settings	
[-] Title Bar	
[-] Buttons Bar	
Tool Bar on top	False
Add Icons Settings	
[-] Button Icons	

i. Title Bar (only in Float template)

[-] Title Bar	
The Book Logo	C:\Users\Admini...
Logo URL	http://flipbuilder...
Book Title	<a href=http://...
Page Number Box On ...	False

PPT to Professional Page-Flipping eBook Utility User Document

Customize book title and logo for showing on the top of your flipbook. You are enabled to set the book title as HTML format text. For example: `FLIPBUILDER.COM | Red Color`

ii. Buttons Bar

<input type="checkbox"/> Buttons Bar	
<input type="checkbox"/> Home Button	
<input type="checkbox"/> About Button	
<input type="checkbox"/> Full Screen Button	Show
<input type="checkbox"/> Help Config	
<input type="checkbox"/> Print Config	
<input type="checkbox"/> Download setting	
<input type="checkbox"/> Sound	
<input type="checkbox"/> Zoom Config	
<input type="checkbox"/> Search	
<input type="checkbox"/> Share	
<input type="checkbox"/> Auto Flip	
<input type="checkbox"/> Thumbnail Button	Enable
<input type="checkbox"/> Single Page	
<input type="checkbox"/> Language	

Home Button

You can add a home button  to help reader to click and go to your website directly:

<input type="checkbox"/> Home Button	
<input type="checkbox"/> Home Button Visible	Show
<input type="checkbox"/> Page URL	http://flipbuil...
<input type="checkbox"/> Open Window	Blank

About Button

Add About button  to show the author, contact, book, company info:

<input type="checkbox"/> About Button	
<input type="checkbox"/> About Button Visible	Show
<input type="checkbox"/> Content	<textformat ...>

Click "..." to enter into "About & Contact" edit interface, after clicking the About button, you will view the About window by clicking the button:

The screenshot shows two windows. The 'About & Contact Settings' window has a text area containing HTML code: `<textformat leftmargin="5" rightmargin="5" >About US

XXXXXXXXXXClick here </textformat>`. Below the text area is a note: "You can use some 'tags' to format the text shown in the 'About & Contact' window, such as text font, font color, hyperlinks and so on. More details about tags please: [Click Here](#)". The 'About & Contact' window displays the rendered content: "About US", "XXXXXXXXXXClick here for", "details", "Company Magazine", "c/o The Jesuit Conference of the United States", "1016 16th Street NW", "Suite 400", "Washington, DC 20036", "(800) 955-5538 [Toll-free] (773) 761-944". A red arrow points from the "Click here" link in the settings window to the "Click here for" link in the rendered window.

Full Screen Button

To enable "Full Screen" functionality in output flipbook, select "Show" in "Full Screen Button" option:

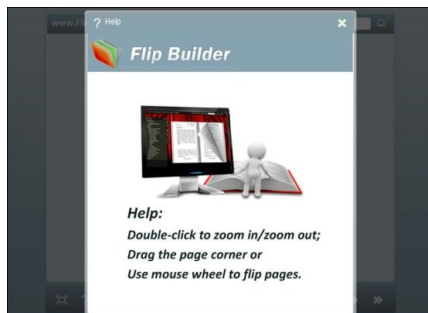

Then you can click icon  to view flipbook in Full Screen, click icon  or "Esc" button to exit from the Full Screen. Or if you want to show your flipbook without Tool Bar while showing in Full Screen mode, you can set "No" in "Full Screen without Tool Bar" (just in Classical Template):

Help Config

Help Config	
Help Button	Show
Help Content File	-type.png ...
Help Window Width	400
Help Window Height	450
Show Help At First	Show

To show tips about viewing flipbook, you can set "Show" in "Help Button" option, and you can define Help Content manually by inserting "Help Content File (image or SWF)", also enable to define the Width and Height of the Help image or swf. If you set "Book->Retain the book to center->No", you can set "Show Help At First->Show" to display the Help Panel with the Book as below:

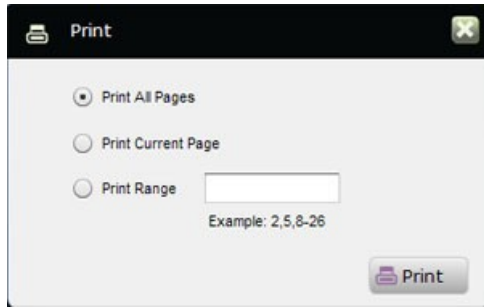

You can also click the button  to view the same Help page in pop-up window.

Print Config

Print Config	
Print Enable	Yes
Print Watermark File	ages\log.png ...

Choose "Yes" in "Print Enable", You can also click "Print Watermark File->..." button to choose image or SWF file from your computer as watermark on printed out pages. Then users can click icon  to set print page range as below:

Download Setting

Download setting	
Download Enable	Yes
Download URL	?PDFDemo.pdf

If you want your flipbook readers to download the PPT file or the flipbook directly from your website, select "Yes" in "Download Enable" option, then input the Download URL directly, you can use absolute path like "http://www.flipbuilder.com/flip-ppt/example/files/download/demo.ppt" or relative path like "/files/download/demo.ppt" (make sure you have uploaded the PPT to the same path).

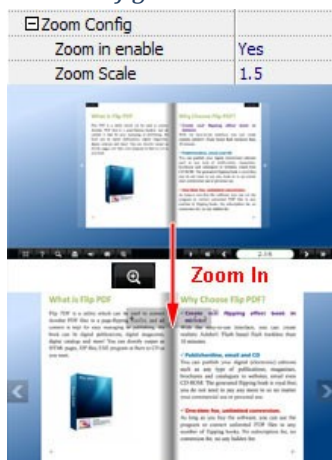

Then readers can click the icon  to download your uploaded PPT file directly.

Sound

Sound	
Enable Sound	Enable
Sound File	mp3.mp3 ...
Sound Loops	-1

If you want to add background sound to your flipbook, such as a song or other audio file, set "Enable Sound->Enable", then click "..." icon to choose "Sound File" from your computer, then set "Sound Loops", "-1" stands for playing the sound file all the time while viewing flipbook, other value (N>0) stands for the times of playing the sound file.

Zoom Config

To Enable Zoon In functionality, choose "Yes" in "Zoon in enable", then set "Zoom Scale", the value is the times between zoomed page size and the current page size.

PPT to Professional Page-Flipping eBook Utility User Document

In Float template, you don't need to set Zoom Scale, you can adjust more conveniently by the zoom in tool like this: . You can also set "Scroll with mouse->Yes" to scroll zoom in page while moving mouse.

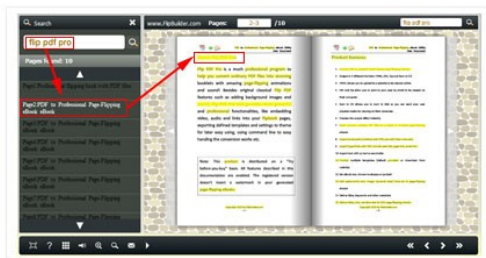

Search

Search Button	Show
Search Highlight Color	 0xFFFF80
Least search characters	3

Select "Show" in "Search Button" (make sure you have check "Enable Search" option in "Import PPT" interface), then define "Search Highlight Color", after clicking "Search" icon

, you will see a popup box to input search words, then click Enter or "Search" button, you will get the below searching result:

Share

<input type="checkbox"/> Share	
<input type="checkbox"/> Share Button	
Social Share Button	Show

You can share via emails, or just through Facebook, Twitter, Google, etc..

a. Share Button

If you want readers to share via Email, you can enable "Share" feature as below shows:

<input type="checkbox"/> Share Button	
Share Button	Show
Email Subject	Rear my fi...
Email Body	{link}

When the viewers click the share button , they will enter into the Email interface with the link of your flipbook in the Email body.

b. Social Share

If you want your flipbook viewers to send the link to their friends or clients via Facebook, Twitter, Linkedin, Google, Yahoo and so on, you can add a Social Share button in your flipbook for readers to send out your flipbook link immediately:

Social Share Button	Show
---------------------	------

The readers just need to click the "Social Share" button , then the below window will pop up for them to choose share channel:

Auto Flip

To auto flip your eBooks, you can set "Yes" in "Auto Flip->Enable" option; then define the Flip Interval (seconds of staying on each page); the value of "Play Count" stands for the times of auto playing the eBook, and "-1" stands for playing forever (after clicking the Auto Flip button , the flipbooks will be flipped by staying 3 seconds per page); if you want to auto start and flip the eBook after opening, just set "Auto flip when start up->Yes":

<input type="checkbox"/> Auto Flip	
Enable	Yes
Flip Interval	3
Play Count	-1
Auto flip when start up	Yes

Thumbnail Button

Show Thumbnail Button  (set "Enable") to view page thumbnails of your book, or you can Disable it to hide the button.

Single Page

If your book contains landscape pages, or the page content is different to read for the font is too small, you can set "Single Page->Enable" to enable readers to click "Single Page" icon  to view pages one after another, then click "Double Page" icon  to back to the normal book reading mode.

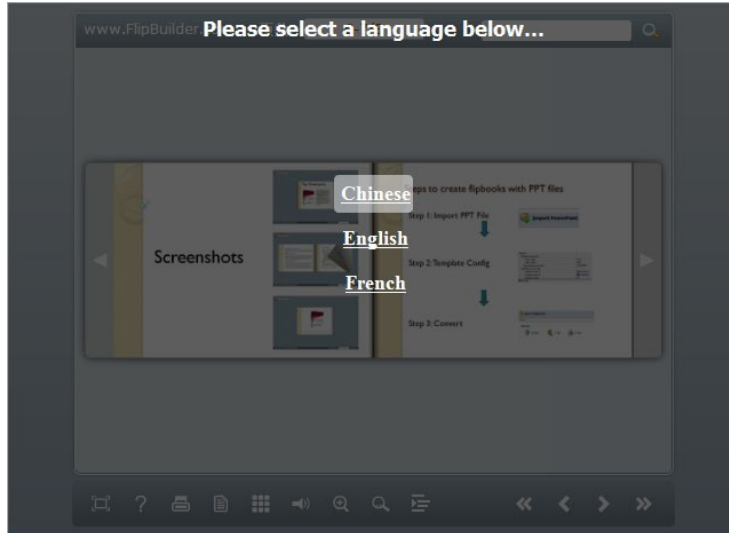

Language

<input type="checkbox"/> Language	English
Language	English;Chine ...
Switchable	Yes

PPT to Professional Page-Flipping eBook Utility User Document

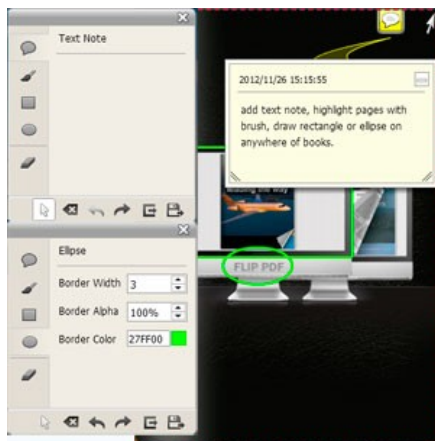

You can set language for showing tools or tips in your created flipbook, click "..." to enter into "Language Settings" interface. You can choose two or more language to use, just check "Switchable" option, then users can click "Switch Language" button  to choose their prefer language for tips:

Add Annotations

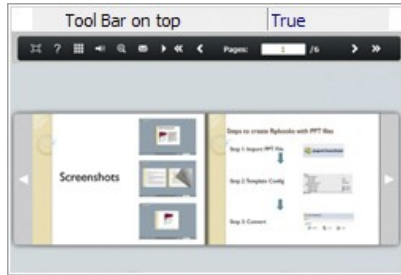

To help readers take notes on your books while reading, you can set "Add Annotation->Enable".

When readers view your book on computer, they can click "Add Annotation" icon  to add text note, highlight pages with brush, draw rectangle or ellipse on anywhere of your book pages. If they open the book next time, they can view the comments, or delete as they want:

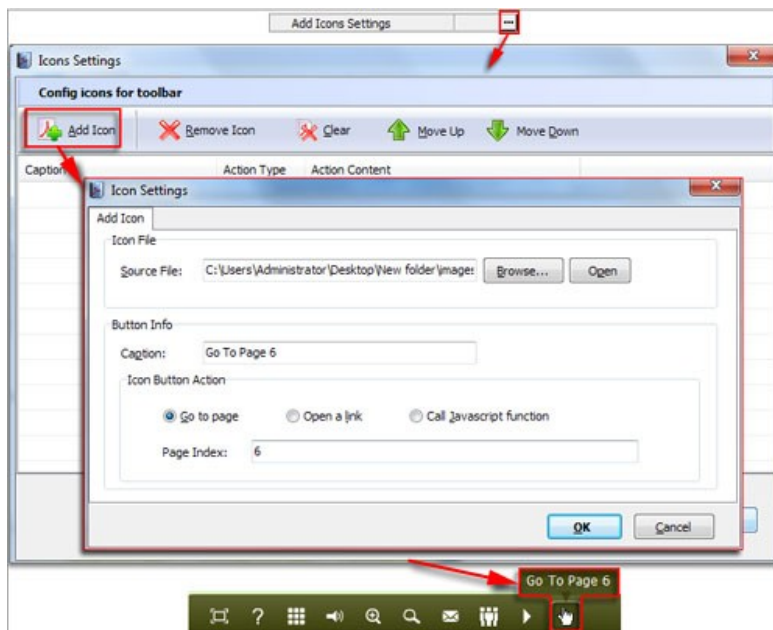

iii. Tool Bar on Top (only in Float template)

If you want to place the toolbar in Float templates on the top of the flash eBook, you can set "Tool Bar on Top" as "True":

iv. Add Icons Settings

If you want to add some other kinds of buttons which the program doesn't provide, you can click "Add Icons Settings->..." to enter into "Icons Settings" interface to add new icons on tool bar:

You can define the link action as "Go to page", or open an online webpage, or even "Call Javascript function" to carry out your wanted interactive functionalities via defining Javascript function yourself.. After your "Apply Change", the new added icon will show in the toolbar. (More details about Call Javascript function will be introduced in the part of "Edit Page->Add Link".)

v. Button Icons

Define settings for the icons of the buttons:

Button Icons	
Icon Color	0xffffffff
Icons File(SWF Only)	

Icon Color

Icon File

Select the Tool Bar Button to replace with your own icon.

Icons File(SWF Only) C:\Users...

More details please view here:

<http://www.flipbuilder.com/support/how-to-replace-icons-on-flash-toolbar.htm>

(3). Flash Display Settings

Flash Display Settings	
Retain the book to center	Yes
Font	
Initial Show	None
Show Corner Flip Effect	False
Background Config	
Flash Window Color	0x8fa0ab
Page Background Color	0xffffffff
Book Proportions	
Book Margins	
Page Shadow	
Hide Book Frame Bar	No
Right To Left	No
Hard Cover	No
Flipping Time	0.6
Page Number	
Minime Style	

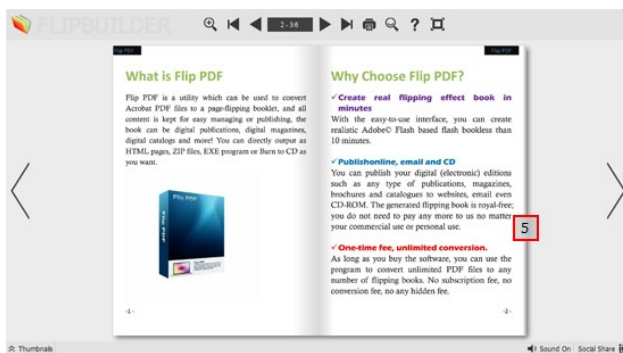

i. Retain the book to center

Retain the book to center Yes

If you select "No" in this option, the eBook will be shown on the right-side. This setting is for embedding special background image, such as advertisement or company log.

ii. Pages per thickness (only in Neat template)

To create more real life like ebook, you can set Pages thickness, there are 5 levels for you to choose based on your needs. And on the book edge, you will see different page number tips for you to click and go to that page directly:

iii. Background Alpha

Background Alpha 1

PPT to Professional Page-Flipping eBook Utility User Document

Set the value (0-1) of alpha to control the transparency of the background in flip book. For example, you can set the value as 0 to make the book background as transparent completely, when you embed the book in other HTML page, it will show the background of that HTML only.

iv. Show Corner Flip Effect

Show the Corner Flip Effect at the beginning to tell readers that they can drag or click the corner to turn pages directly.

v. Mouse Tracing Effect

Show Mouse Tracing Effect at the beginning to tell readers that they can drag or click the corner to turn page. If the book is set to open with double page spread, then the Mouse Tracing Effect won't work.

vi. Open thumbnails pallet

Define whether the thumbnail pallet open or not when you arrive on the book.

vii. Font

<input type="checkbox"/> Font	
<input type="checkbox"/> Buttons	
Font Color	<input type="checkbox"/> 0xffffff
Button Font	Tahoma
<input type="checkbox"/> Title and Windows	
<input type="checkbox"/> Bookmark	
<input type="checkbox"/> Search	

If you want to change fonts of toolbar buttons, flash windows even bookmarks or search result panel, you can set font types and colors in Font Panel.

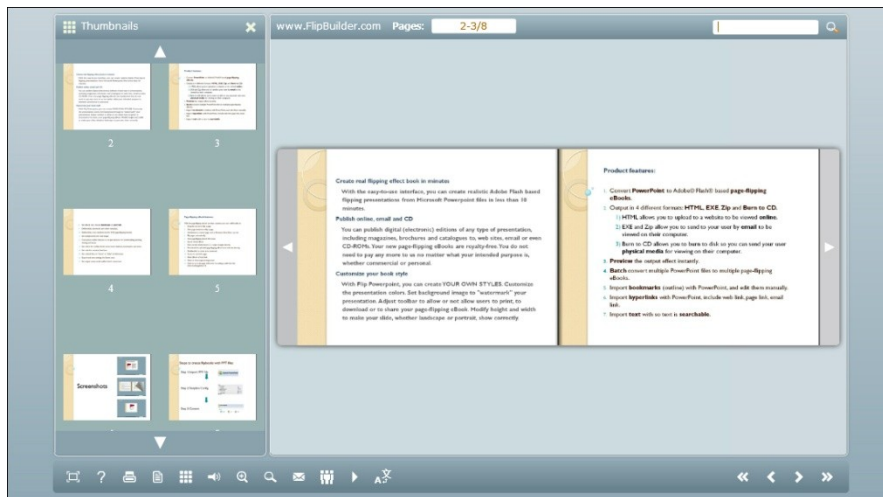

viii. Initial Show (set in Float/ Spread templates)

You can show Bookmark panel or Thumbnails panel on the flash page at the beginning, just select "Bookmark" or "Thumbnails" in this option:

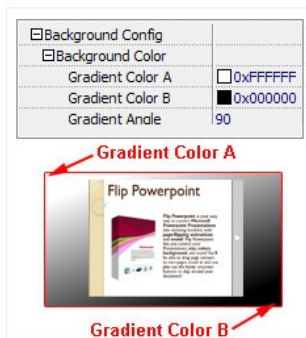

For Example, select "Thumbnails":

Then you will get flipbook shown with below initial interface:

ix. Background Config

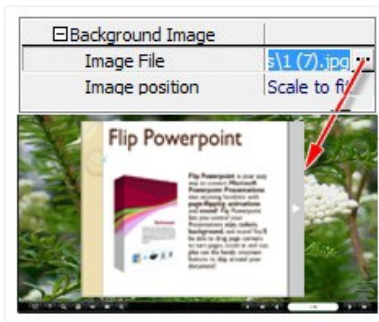

Background Color:

Define background for your flipbook with gradient color or pure color (the same color for "Gradient Color A" and "Gradient Color B"). Gradient Angle is the angle between two colors.

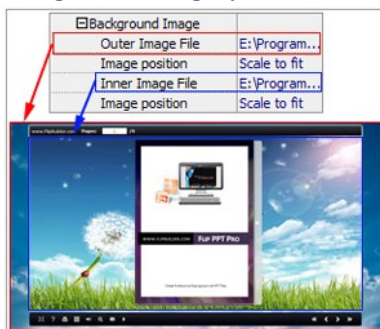

Background Image (set in Classical and Spread templates):

Click the icon "..." to choose background image from your computer, and there are 11 kinds of "Image Position" for you to choose: Scale to fit, Fill, Top Left, Top Center, Top Right, Middle Left, Middle Center, Middle Right, Bottom Left, Bottom Center and Bottom Right.

Background Image (set in Float template):

The Float template enables you to add two background images: Outer Image and Inner Image. You can make Inner background image to show special information, such as advertisement or company logo, etc. There are also 11 kinds of "Image Position" for you to choose: Scale to fit, Fill, Top Left, Top Center, Top Right, Middle Left, Middle Center, Middle Right, Bottom Left, Bottom Center and Bottom Right.

x. Flash Window Color

This color will be applied on all flash windows, such as the book window, "Help" window, "Print" window and so on.

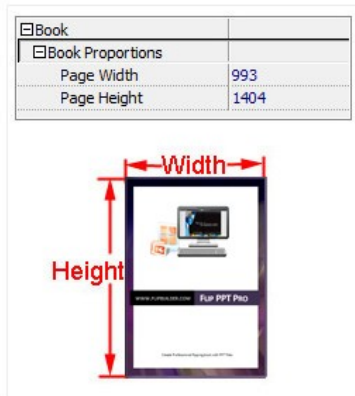

xi. Page Background Color

When load pages, or if the page number of your PPT file is odd, then the page (the last page) will show with the "Page Background Color".

xii. Book Proportions

Please note that the values are not fixed in pixels or inches, they just represent a ratio for "Page Width: Page Height", and the book size will be changed depend on your Explorer Window Size.

xiii. Book Margins

Book Margin (set in Classical Template):

"Book Margin" refers to the distance between the book and the toolbar.

Top/ Bottom/ Left/ Right Margin (set in Float/ Spread Template):

xiv. Page Shadow

<input type="checkbox"/> Page Shadow	
Left page Shadow	50
Right page Shadow	25
Page Shadow Opacity	0.5

Left page Shadow

Right page Shadow

The value also takes the value of Book Proportions as reference, and the value interval of "Page Shadow Opacity" is "0~1", the larger value refers to the deeper shadow color.

xv. Hide Book Frame Bar

Hide Book Frame Bar

If don't want to show the book frame bar, choose "Yes" in this option.

xvi. Right to Left

If the language of your file is read from right to left (such as Arabic), then choose "Yes" in "Right to Left" option:

xvii. Start on Double Page

Open your book in double-page spread or not. "Yes" means open book without cover, presenting first two pages at a time. If you have odd number pages, you can set this option as "Yes".

xviii. Hard Cover

If you want create hard cover effect (a book bound with rigid protective covers) for your flipbook, choose "Yes" in "Hard Cover" option:

xix. Flipping time

Sets page flipping time in seconds according to your needs. (Recommended value is 0.6)

xx. Mouse Wheel to Turn page

Enable or Disable turning page with mouse wheel.

xxi. Page Number

If you don't want to count in the cover page, table of contents pages into the actual page numbers, you can set "Start Page Numbering (Roman)" and "Start Page Numbering (Arabic)". For example, the first 3 pages are Table of Content pages with Roman page numbers, and set Arabic page numbers from page 4, then you will get page number box like below:

<input type="checkbox"/> Page Number	
Start Page Number (Roman)	0
Start Page Number (Arabic)	3
Front Cover Page:	
Pages:	1/8
The Fourth and Fifth Pages:	
Pages:	1-2/8

xxii. Minime Style

If you want to present Page-flipping eBook pages directly without showing toolbar, especially when you want to embed eBook into a small area in existing webpages, then you can use this "Minime Style". The Minime Style will trigger when the Width or Height of the Flash Container is less than the defined value. You can also always show the page-flipping eBook in Minime Style with adding a parameter to your URL like this:

www.yourdomain.com/index.html?alwaysMinimeStyle=true .

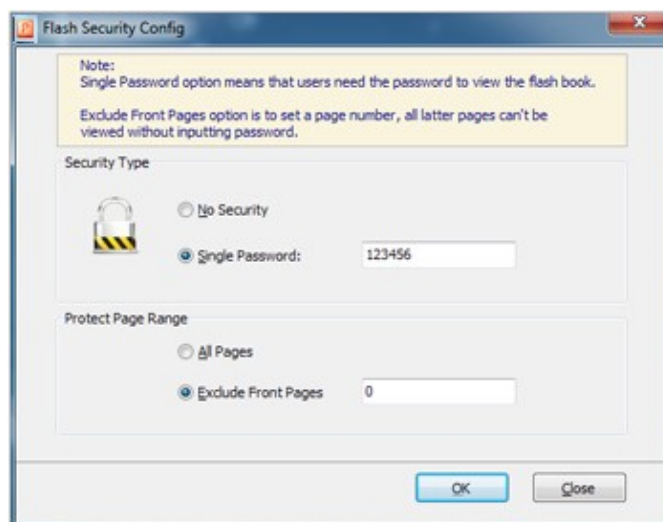

(4). Flash Control Settings

i. Security Settings

If you want to protect your flash books with passwords, you can click "..." icon to enter into "Flash Security Config" interface:

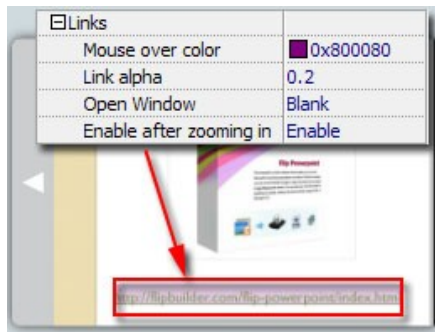

PPT to Professional Page-Flipping eBook Utility User Document

Select "Security Type->Single Password", and input passwords into the box (there is no restriction on password format at present). You can also set "Protect Page Range" as "All Pages" or the latter pages after a defined page number. (Tips: The program utilize RC4 algorithm to protect eBook pages, the eBook content pages will show nothing without permission.)

ii. Links

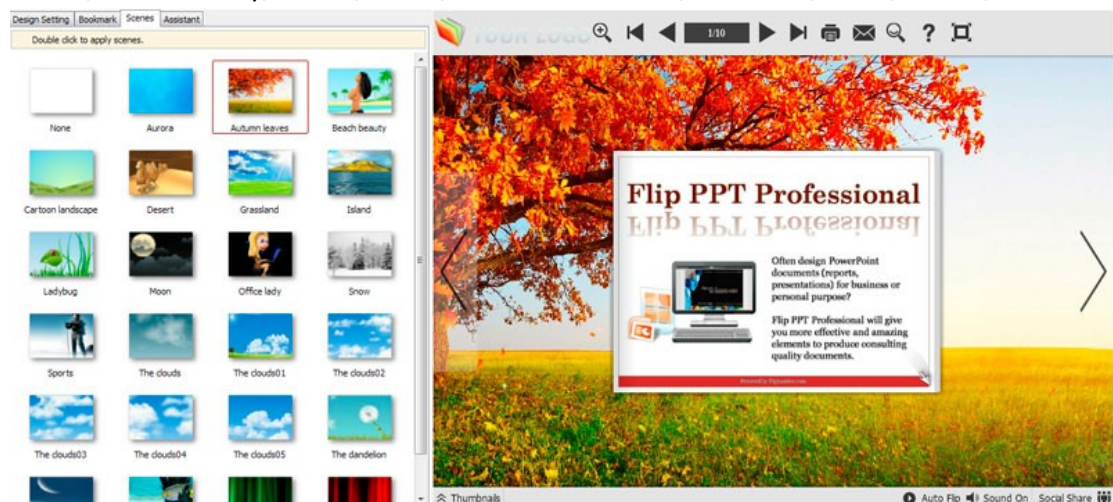

If you have checked "Import links" option in "Import PPT" interface, or add links in "Edit Page" interface, then you can define settings here, choose "Mouse over color", "Link alpha" (refers to the link area opacity, value interval: 0~1, "0" stands for the area is totally transparent), and "Open Window->Blank/ Self". The links also can be clicked after zooming by setting "Enable after Zooming in->Enable".

iii. Google Analytics

In the HTML output format, you can add statistics by using google analytics. You can get more information about Google Analytics ID from <http://www.google.com/analytics/>.

2. Scenes Setting

To make your book more attractive and lively, you can apply animated "Scene" in the flip program. There are many pre-designed scenes for you to use directly, such as Autumn Leaves, Beach Beauty, Desert, Moon, Underwater World, Grassland, Snow, Clouds, etc.

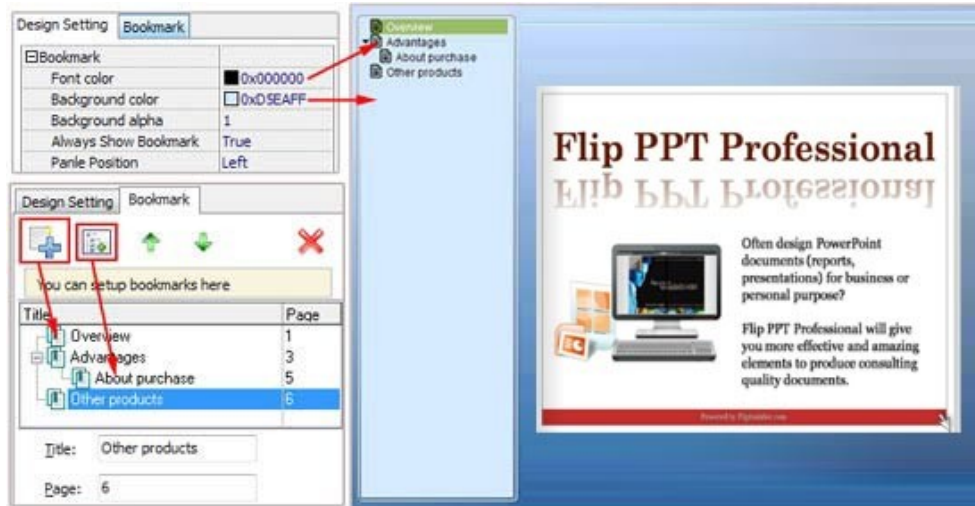

PPT to Professional Page-Flipping eBook Utility User Document

Just double-click to apply the scenes, or you can set your own style scene by setting "SWF" format background image in "Design Setting" part.

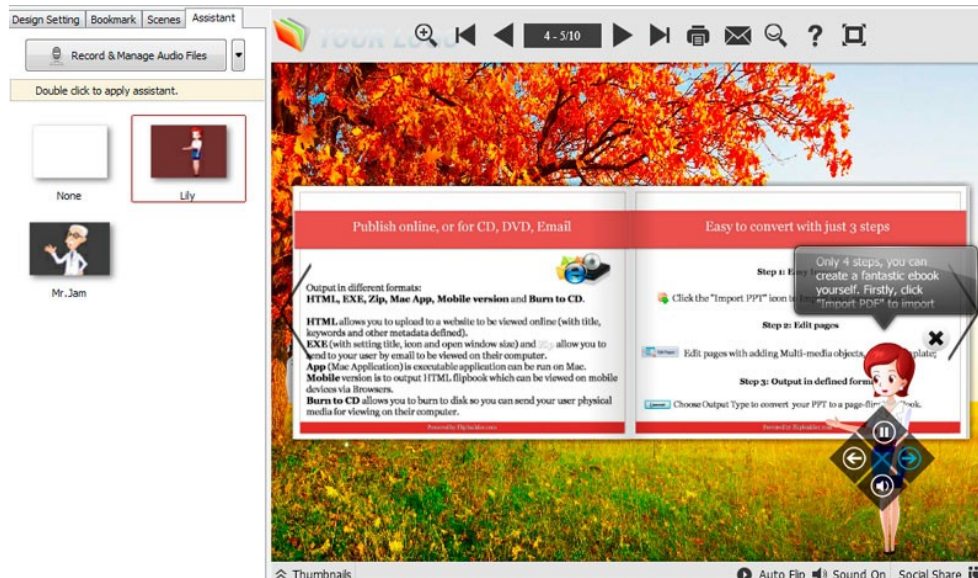

3. Bookmark Editing

You can edit bookmarks in the program. In Classical Template, you can even define bookmark font color, background color, position, etc.:

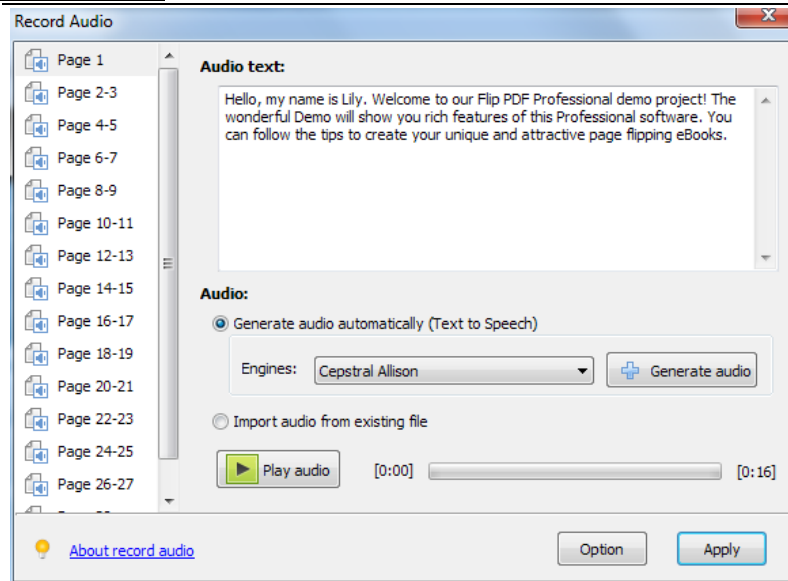

4. Assistant

If you want to provide sound or text tips for pages of your books, you can enable the Assistant Feature, edit scrolling text, record audio or insert sound directly. Then readers can follow your tips, listen to the audio you applied, get more interest and info from your book.

Click "Record & Manage Audio Files" icon  to Record Audio:

Input "Audio Text" for each page, and then choose Text-to-Speech engine, and then click "Generate audio". After generating, you can click "Play audio" to listen to the audio, you can also choose "Import audio from existing file" to apply existing audio directly. About Text-to-Speech engine install and use, you can view details in this page:

<http://www.flipbuilder.com/support/how-to-read-your-text-to-readers-in-flipping-book.htm>

5. Other Settings

(1). Export Theme

If you want to save the current template settings as your own style template for later uses, you can click "File->Export current settings as Theme" button to storing all current template settings, include the background images, margin values, toolbar buttons and so on.

Then when you want to use later, just click "File->Import Themes", the theme will be added to the templates selecting interface. Download more themes from FlipBuilder now:

<http://www.flipbuilder.com/templates-themes/index.html> .

(2). Application Options

Pages Quality and Size for mobile version

Mobile Template

The current version provides two mobile template modes for you to use: Slide and Single Page Flip. The later one adds page-flipping effect on the pages while viewing in mobiles.

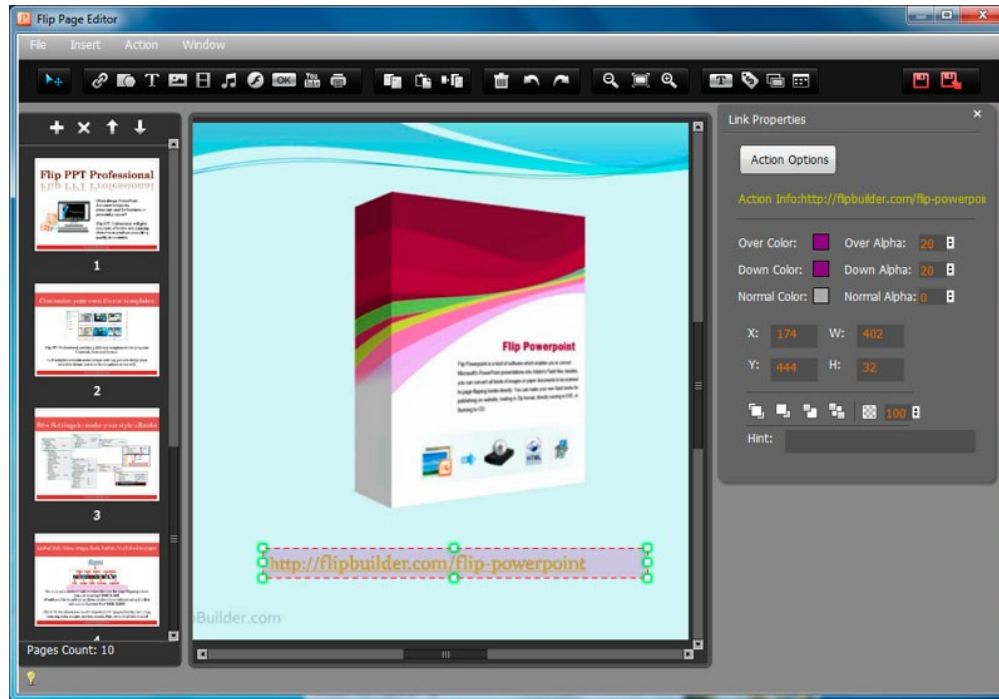

After defining options, click "Apply Change" icon  to apply the settings.

Copyright 2012 by FlipBuilder.com

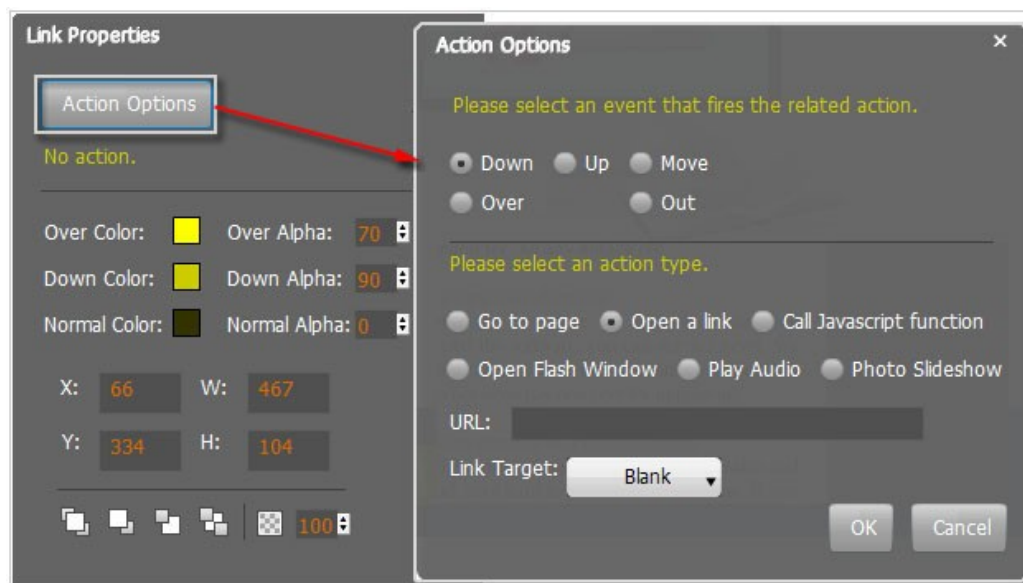

IV. Edit Pages

Use Flip PPT Pro to edit imported pages directly, no matter you want to add link, video, sound or image file. Click "Edit Pages" button  to enter into page edit interface:

1. Add Link

Click the icon  and then draw a link box on the area you want to add link, then define properties in below panel:

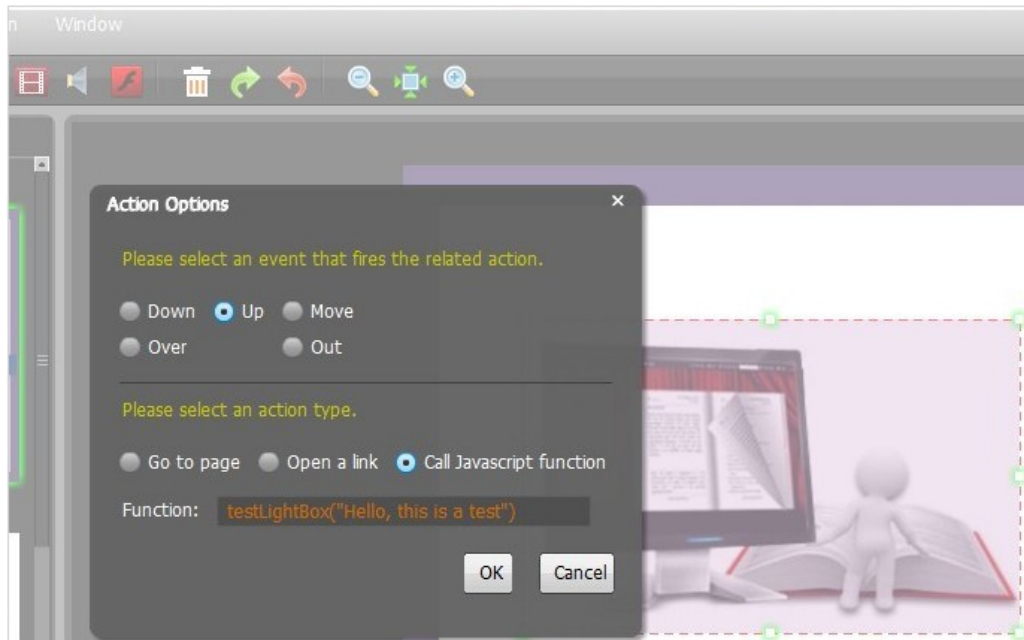

PPT to Professional Page-Flipping eBook Utility User Document

You can define the link action as "Go to page", or open an online webpage, or even "Call Javascript function" to carry out your wanted interactive functionalities via defining Javascript function yourself. For example, you can show a pop-up light box while readers clicking some image on page, or pop-up a questionnaire or other Web Form by clicking some text. Just make sure the parameter you set in "Function" can be called in from HTML page.

Example: Check "Call Javascript function" as action type, then input Function as "testLightBox("Hello, this is a test"):

And then make sure the Javascript wrote into the index.html page as below image shows (the same as you set in "Link Function"):

```
<head>
<title>PDF-BenU brochure 2010-100dpi</title>
<meta http-equiv="Content-Type" content="text/html; charset=utf-8" />
<meta name="Keywords" content="" />
<meta name="Description" content="" />
<meta name="Generator" content="[Flip PDF version 3.0] at http://flipbuilder.com/" />
<!-- Include CSS to eliminate any default margins/padding and set the height of the html element and
the body element to 100%, because Firefox, or any Gecko based browser, interprets percentage as
the percentage of the height of its parent container, which has to be set explicitly. Initially,
don't display flashContent div so it won't show if JavaScript disabled.
-->
-->
<style type="text/css" media="screen">
html, body { height:100%; }
body { margin:0; padding:0; overflow:auto; text-align:center;
background-color: #ffffff; }
#flashContent { display:none; }
</style>

<script type="text/javascript">
function testLightBox(strFromFlash){
/**
do the things you want here!
**/
alert(strFromFlash);
}
</script>
```

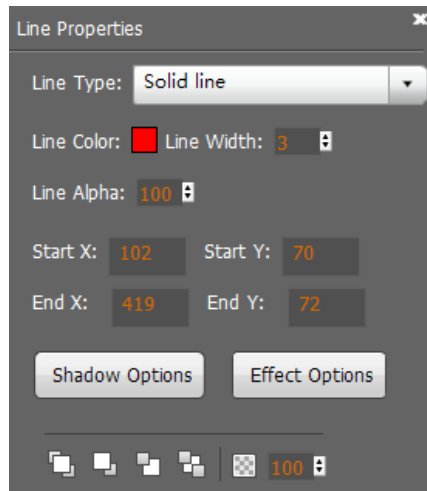

2. Select Shape to Insert

You can draw shapes on pages as you want by clicking icon . You can add below shapes:

(1). Line

Choose "Add Line" icon  to draw line on pages, and then define options for the inserted line in right panel as you want. Like set Line Type as "Solid line" or "Dotted line", define Line Color, Width, Alpha, Position, Size, Shadow, and Effect (support "Fade In" at present):

(2). Add Arrow-line

Click "Add Arrow-line" icon  to draw arrow-line on pages. You can also define the arrow-line proportions, like color, width, alpha, position, size, etc.:

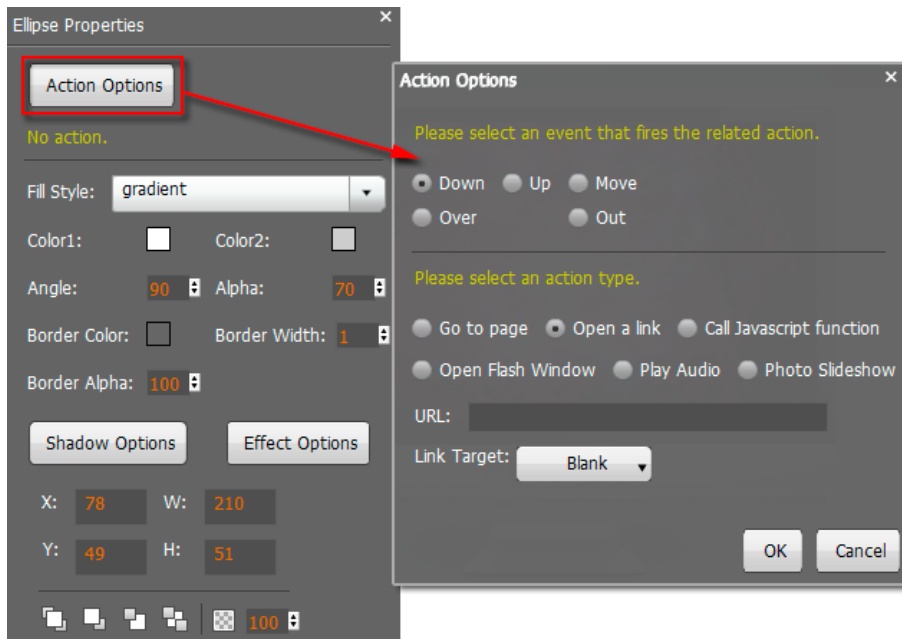

(3). Add Ellipse

Click "Add Ellipse" icon  to draw ellipse on pages, you can also define options like actions,

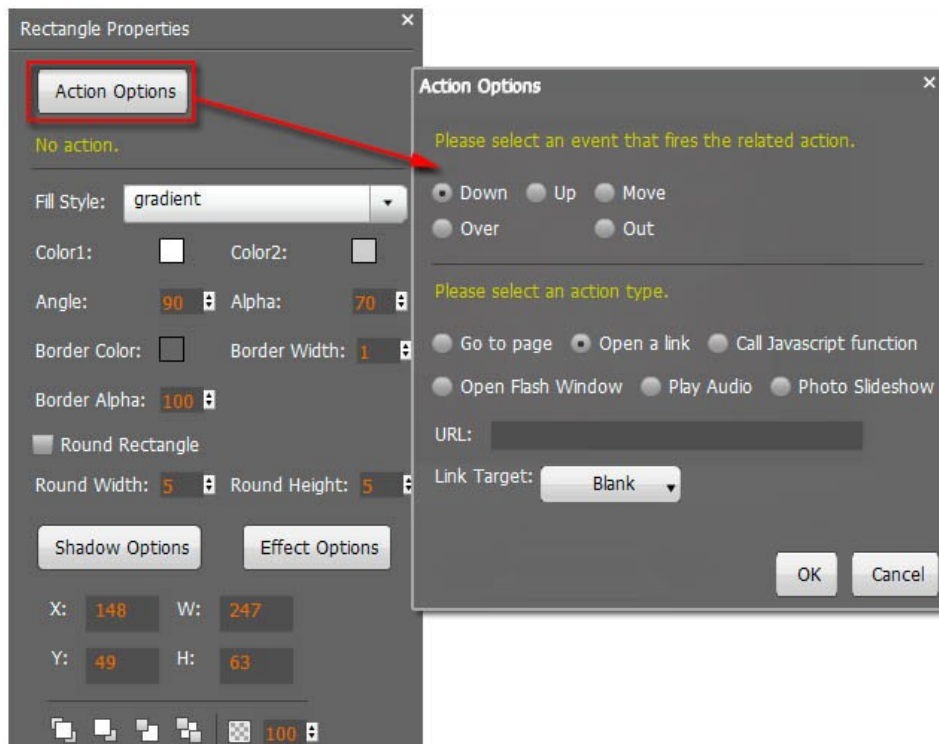

fill style, color, border, shadow, effect, etc. Action types include "Go to page", "Open a link", "Call Javascript function", "Open Flash /video Window", "Play Audio" or "Photo Slideshow".

(4). Add Rectangle

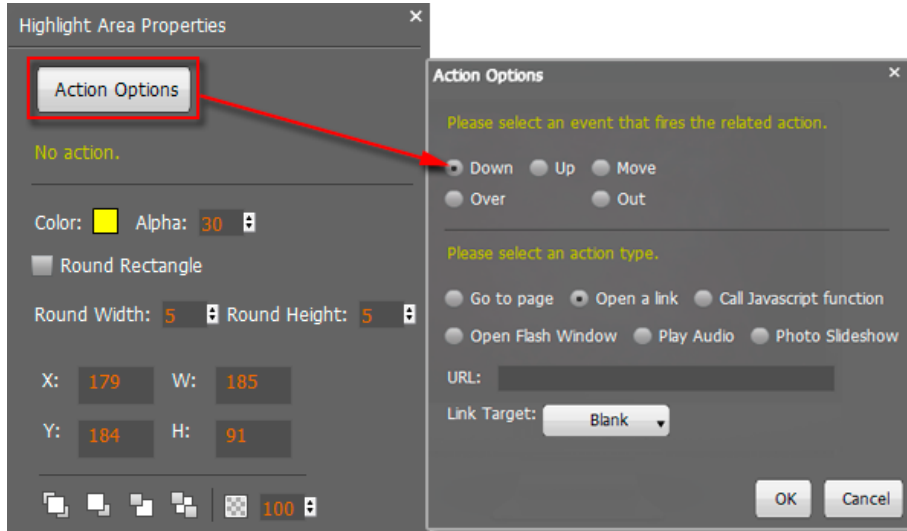

Click "Add Rectangle" icon  to draw rectangle on pages, you can also define options like actions as "Go to page", "Open a link", "Call Javascript function", "Open Flash /video Window", "Play Audio" or "Photo Slideshow". And define fill style, color, border, shadow, effect, etc:

(5). Add Highlight Area

Click "Add Highlight Area" icon  to draw highlight on pages, you can also define options like actions as "Go to page", "Open a link", "Call Javascript function", "Open Flash /video Window", "Play Audio" or "Photo Slideshow". And define color, round rectangle, etc:

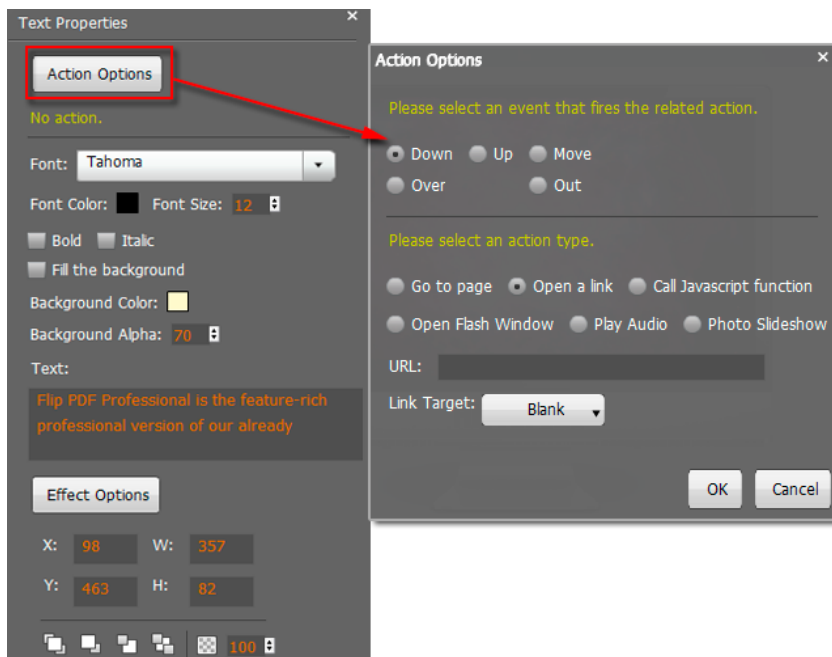

3. Add Text

You can edit different types text by clicking icon :

(1). Add Plain Text

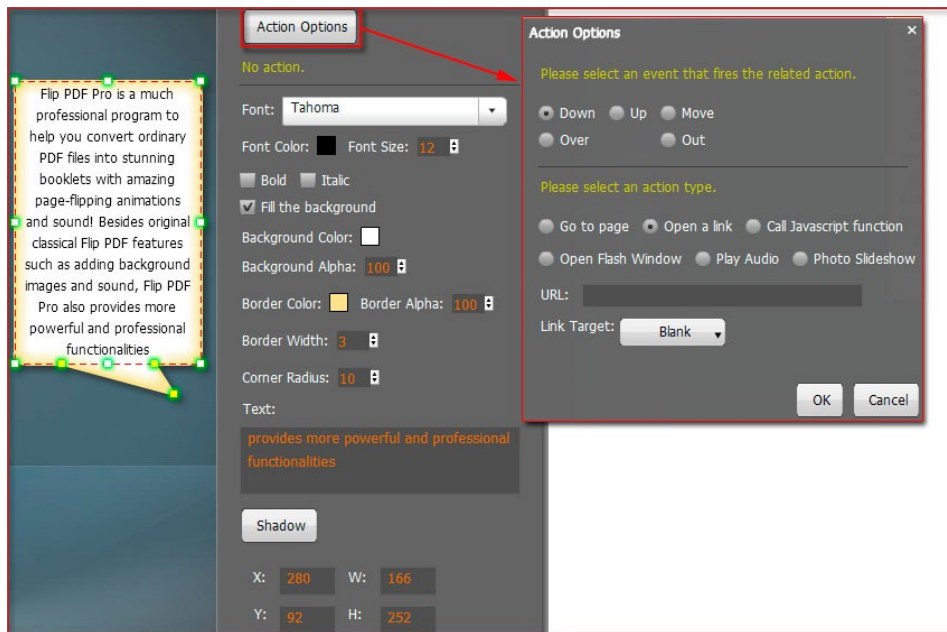

Click "Add Plain Text"  to insert text into pages, then edit text content in right edit panel, you can also define actions, font, color, background, effect, etc.

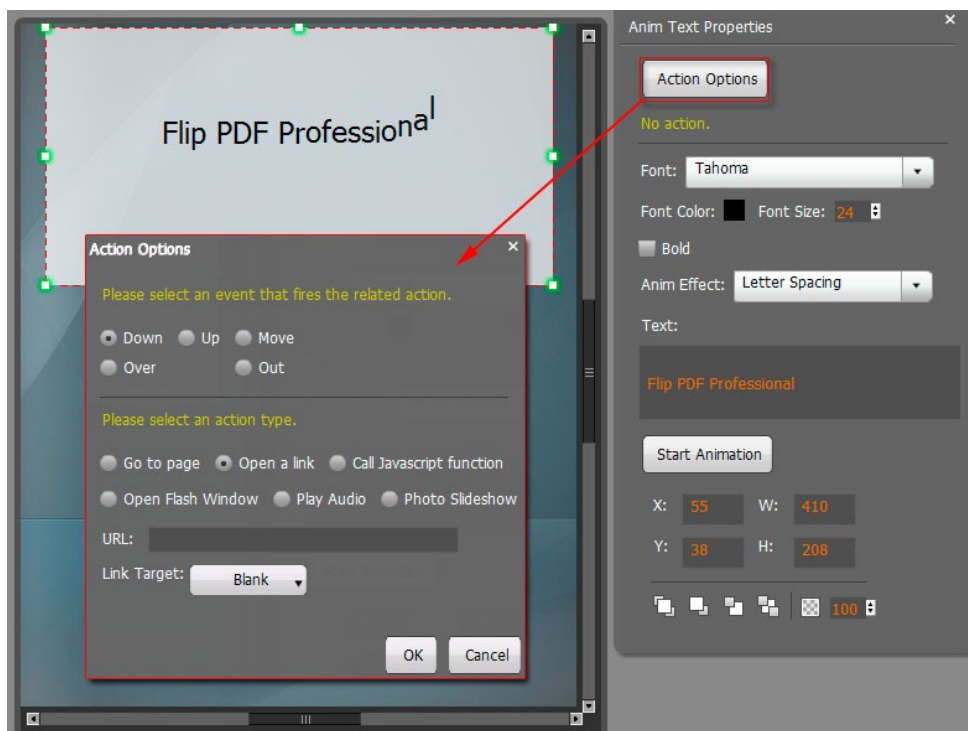

(2). Add Callout

Add callout text like dialog box, just click "Add Callout" icon , input text and define actions:

(3). Add Animated Text

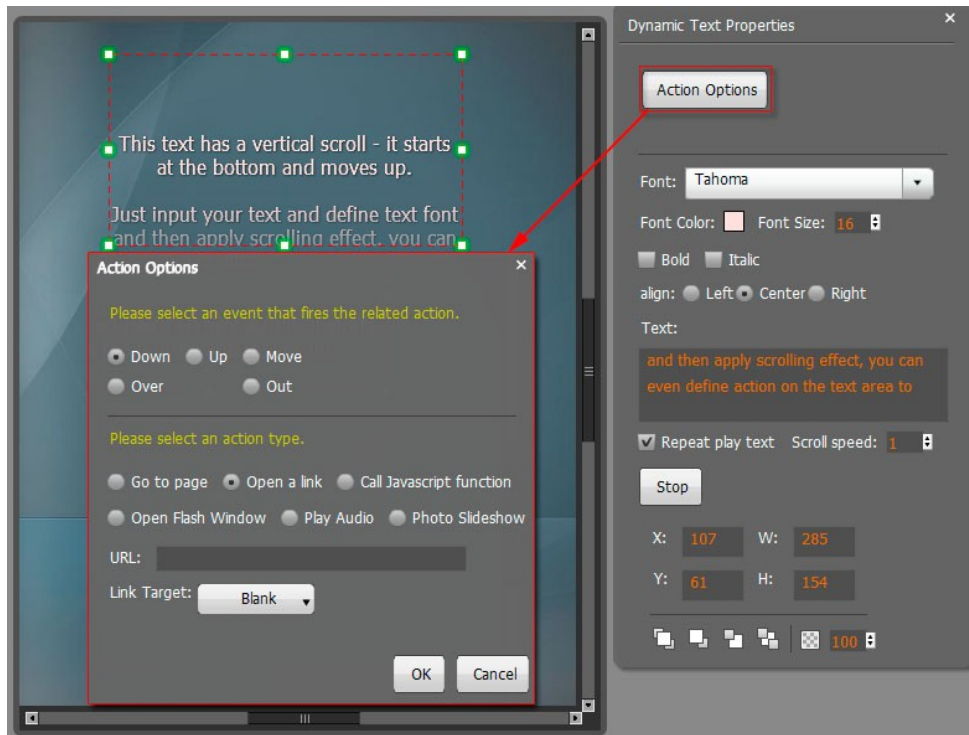

You can add text with different kinds of animated effect, such as Letter Spacing, Scale Word, Right To Left, Center to Edges, etc. Just click "Add Text Anim" icon  to add text and choose effect:

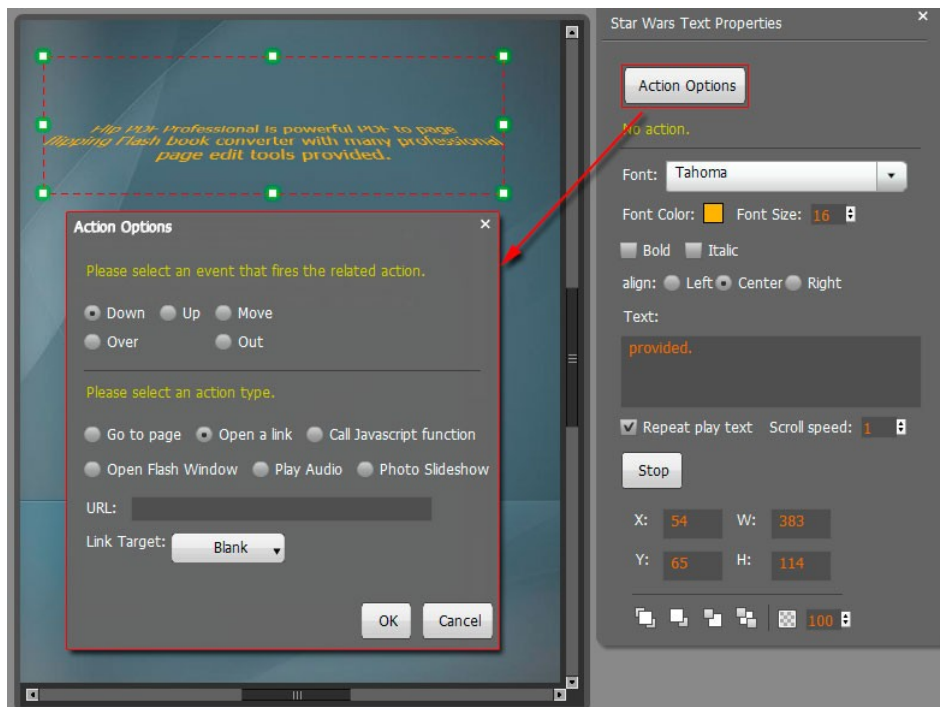

(4). Add Dynamic Text

To have your text scroll up a slide like the credits after films, just click "Add Dynamic Text" icon  to add text and choose action:

(5). Add Star Words Text

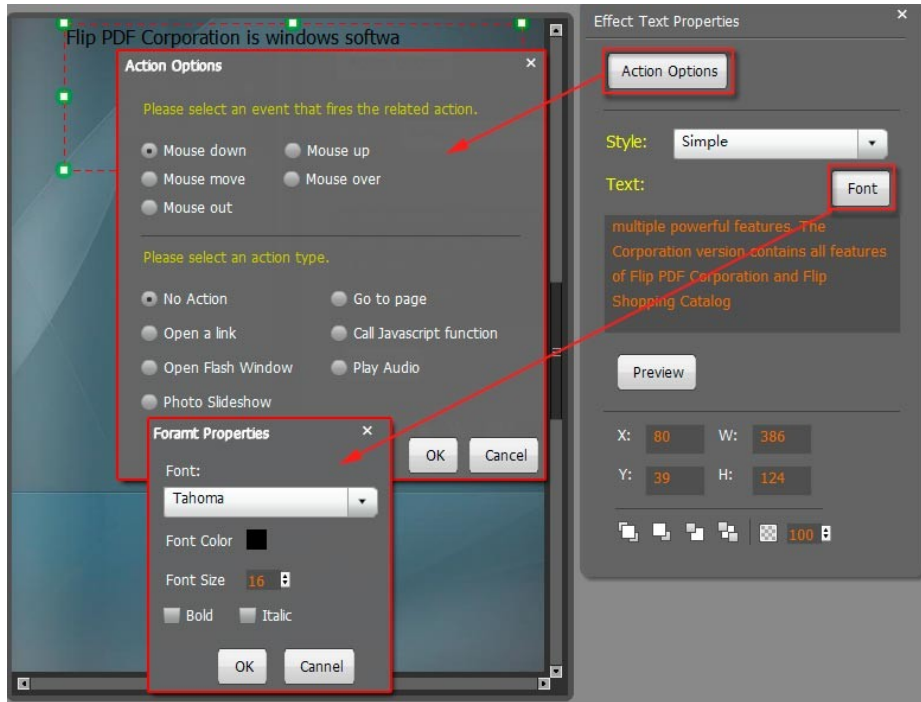

To make your text more different, you can click "Add Star Words Text" icon  to show text as below shows:

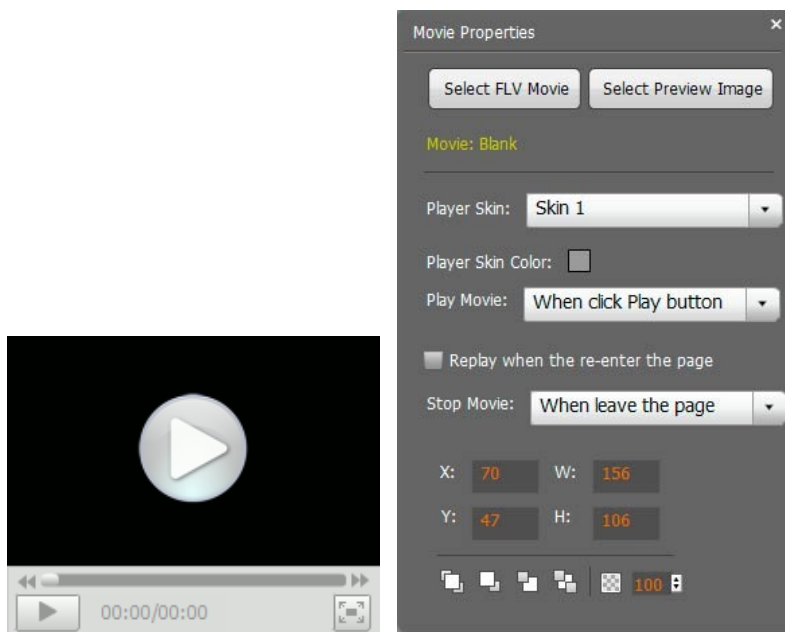

(6). Add Effect Text

To show text characters one after another, just click "Add Effect Text" icon , input your text and choose style, font and define actions:

4. Add Movie

Click icon  and then draw a box like below on the page you want to insert FLV movie. Then you can select and edit the movie in below panel (define video player skin color, preview image, play and stop movie actions, etc.):

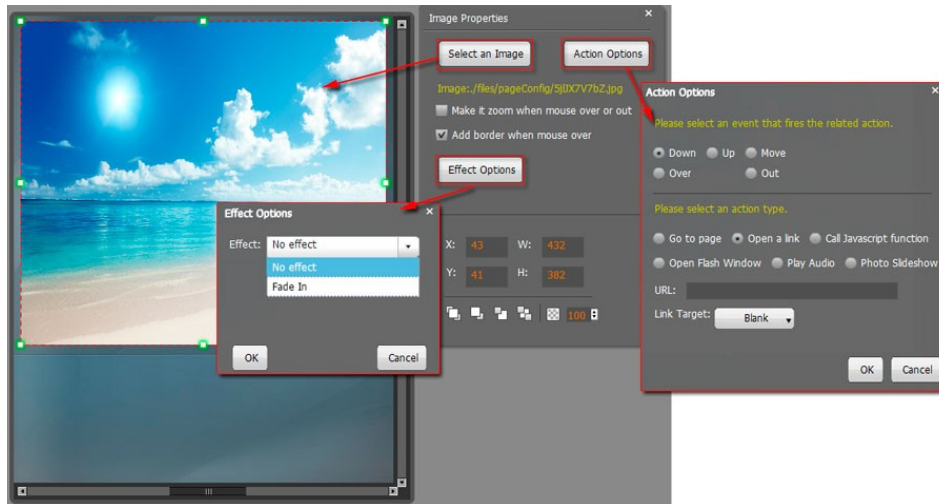

5. Select Image Displayer to Insert

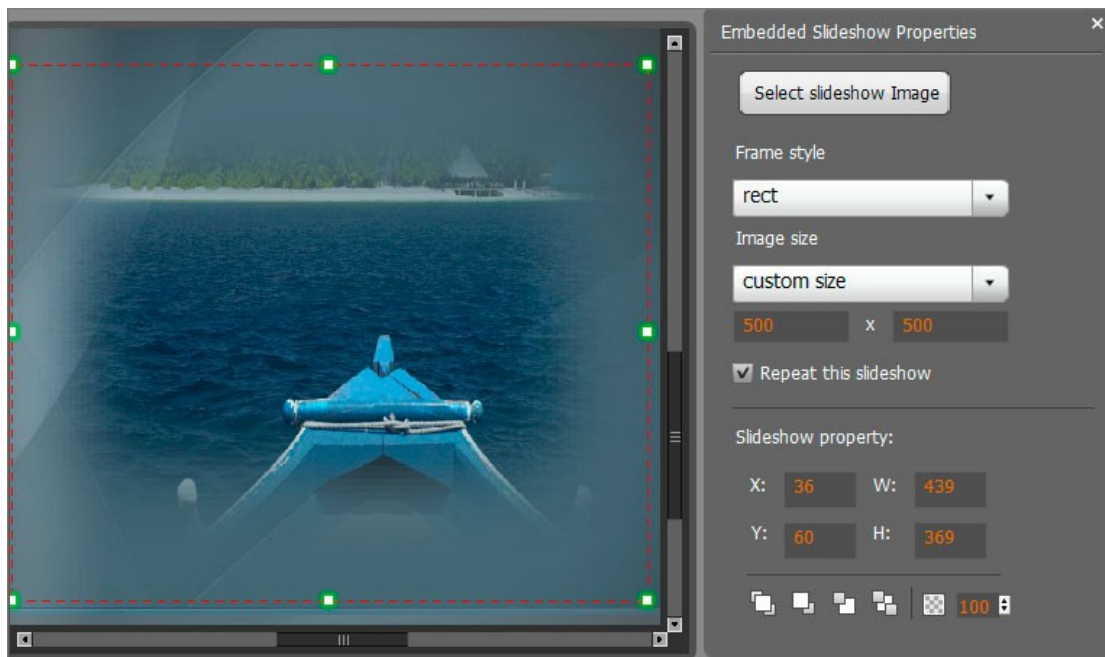

(1). Add Image

Click the icon  to draw image box and then select image (.jpg, .png, .bmp, .gif), set Action Options (the same as Link Action Options), you can also set "Make it zoom when mouse over or out" or "Add border when mouse over", and set Effect as "Fade In" or not:

(2). Add Embedded Slideshow

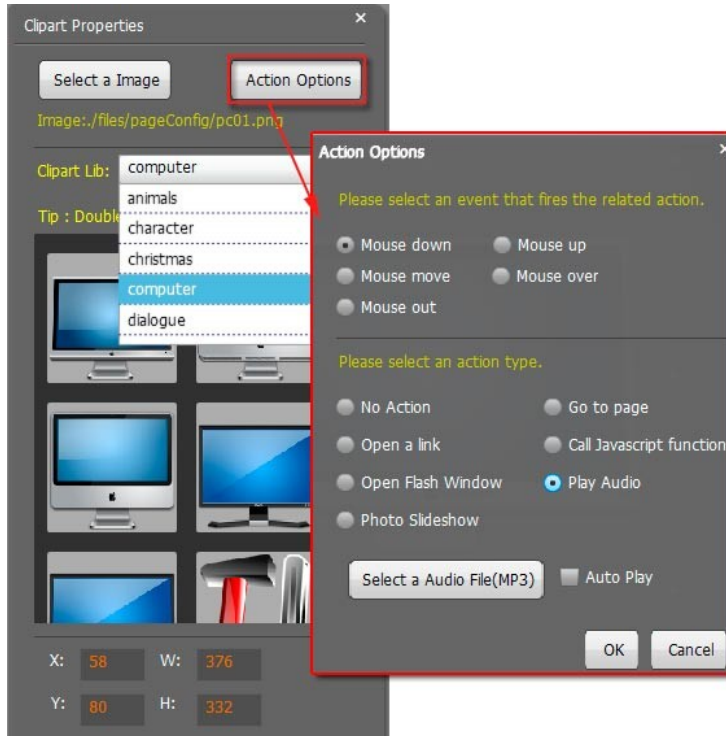

Click the icon "Add Embedded Slideshow"  to show your images as slideshow. The images are displayed one at a time and pan from one point to another. Suitable for photography slideshow for wedding, presentation, etc.. :

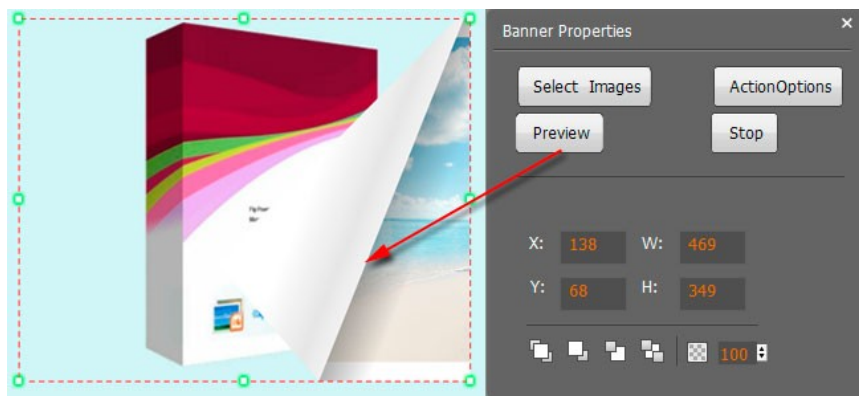

(3). Add Clipart

You can add clipart on pages to decorate pages of your book by clicking "Add Clipart" , and there are multiple PNG format cliparts for you to add on pages directly, such as computer, animal, dialogue, characters:

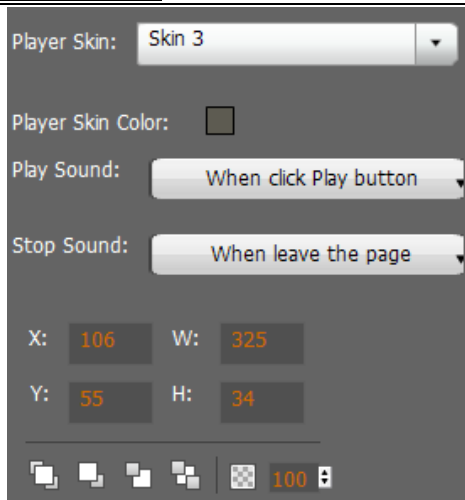

(4). Add Banner

You can add banner image with page flip flash effect by clicking "Add Banner" , then choose image and you can preview the banner effect directly:

6. Add Sound

You can add different sound players by clicking icon "Select Sound Player to Insert" . You can choose Player Skin for all kinds of sound player, set skin color, when to play or stop the sound:

(1). Add Normal Sound Player

Click the icon  to draw sound box and then select sound file:

(2). Add Advanced Sound Player

There are also different skins for you to choose by clicking "Add Advance Sound Player" , more functional and different style:

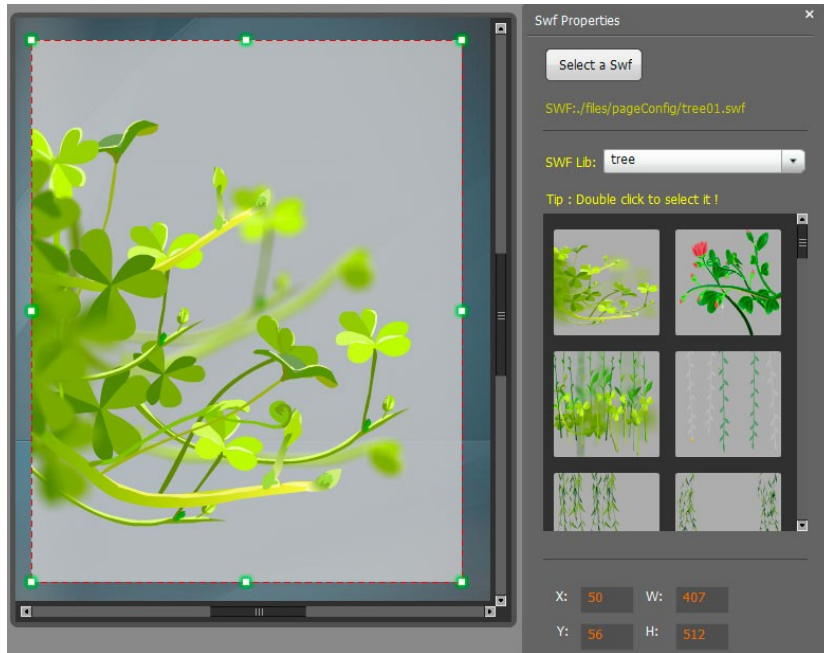

(3). Add Wave Music Player

To show your music with wave, click "Add WaveMusicPlayer"  and select music then:

8. Add Flash

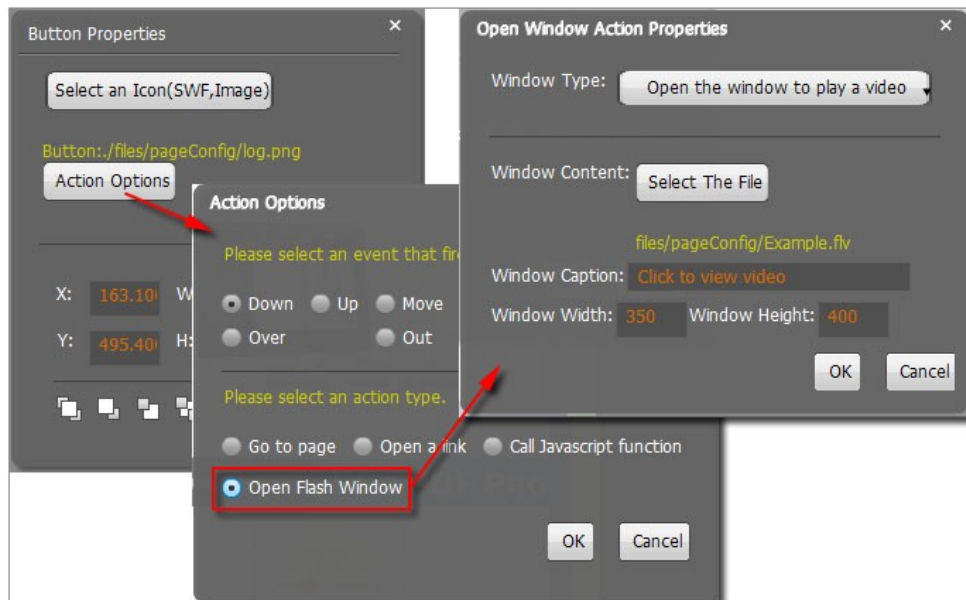

Click icon  to insert SWF flash into your defined area of flipbook page, there are different types of SWF files provided for you to use directly, such as tree, birds, cloud, butterfly, etc.:

9. Add Button

Click icon  to draw an area for inserting your image or SWF button file with calling actions.

The actions contain "Go to page", "Open a link", "Call Javascript function" and "Open Flash Window". The before three actions are the same with the actions in "Add Link", the "Open Flash Window" can help you to play SWF Flash or FLV Video in the pop-up window:

10. Add You Tube Video

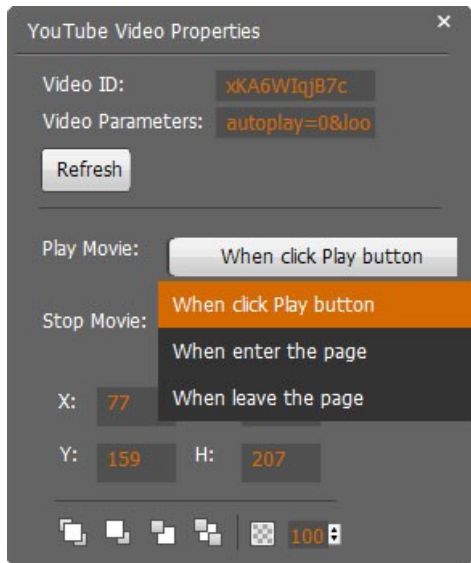

Click the icon  and then draw a box on the page to insert You Tube video into pages directly.

You just need to define the video ID directly. For example the video link is:

Copyright 2012 by FlipBuilder.com

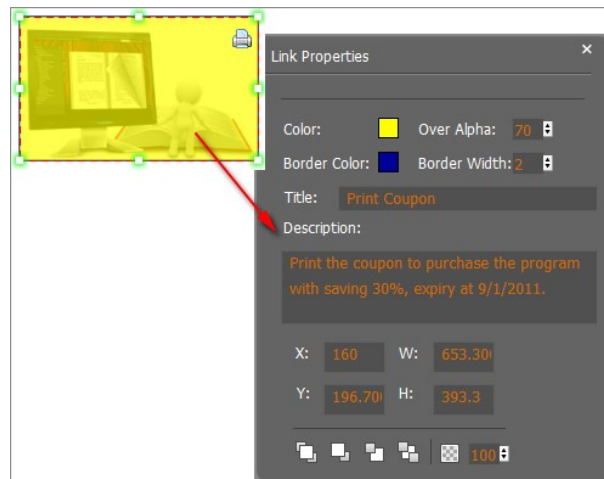

<http://www.youtube.com/watch?v=xKA6WlqjB7c>, then the video ID is "xKA6WlqjB7c".

11. Add Printable Area

If you want readers can click on some area of your book to print the area directly, such as coupons which can be used to buy your presented goods, you can add a "Printable Area" on

pages by clicking the icon , and then draw the area on the pages, set title and description:

12. Copy and Paste

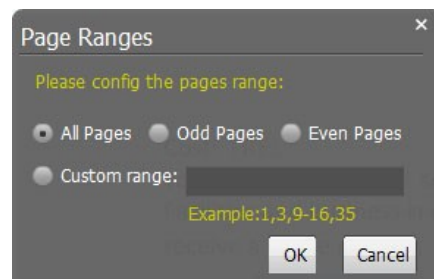

If you want to add same links, images, videos, audios to different pages, you don't have to repeat the "Link/Image/Video/Audio added" operations once and once again, just select the link object,

click the copy button  and then go to the other page to click the paste button  directly.

13. Apply All

If you want to use the same link, video, audio, image or button on all pages (or all odd, even pages, or your customized pages), you can select the object and

then click the Apply All button , then define the apply page range in pop-up window:

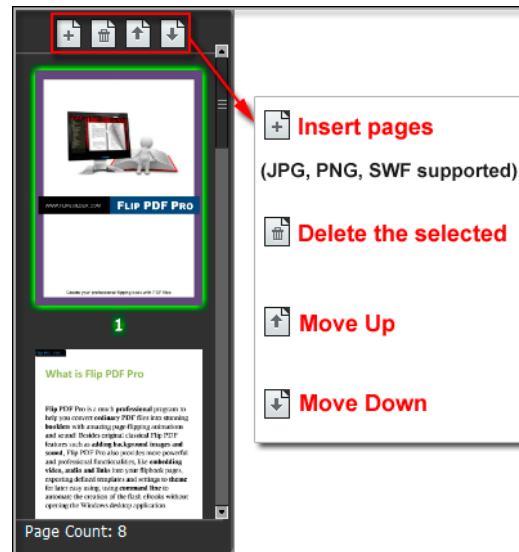

14. Add/ Delete/ Reorder Pages

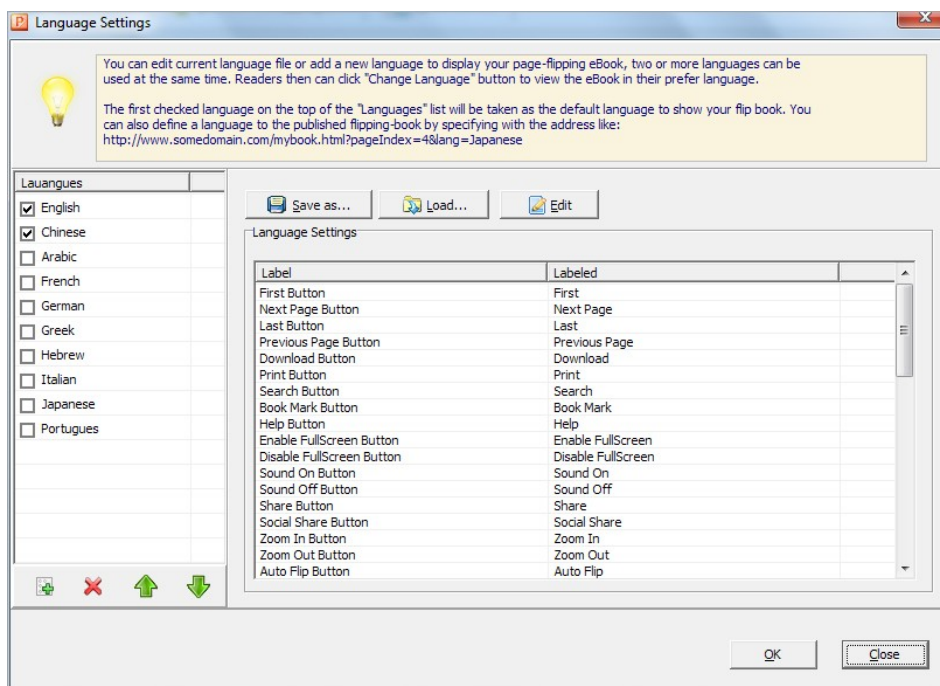

If you want to add more pages to your existing project, or delete some page, or change the order of pages, you can click the buttons on the left panel box to add (JPG, PNG or SWF), delete or reorder:

After adding links, flash, movie or sounds, you can click the icon  to save the settings and back to the template setting interface.

V. Language Options Interface

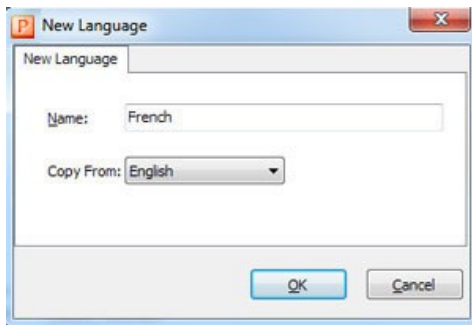

Click "Option->Flash Language" or "... " button beside Language setting part, you will enter into the Language Settings interface as below shows:

As the tips explaining, the "Labeled" column lists the buttons and instructions on Flash books in defined language, and the program provides you 10 different languages for you to use: English, Chinese, Arabic, French, German, Greek, Hebrew, Italian, Japanese and Portuguese. You can also add other language for your own uses:

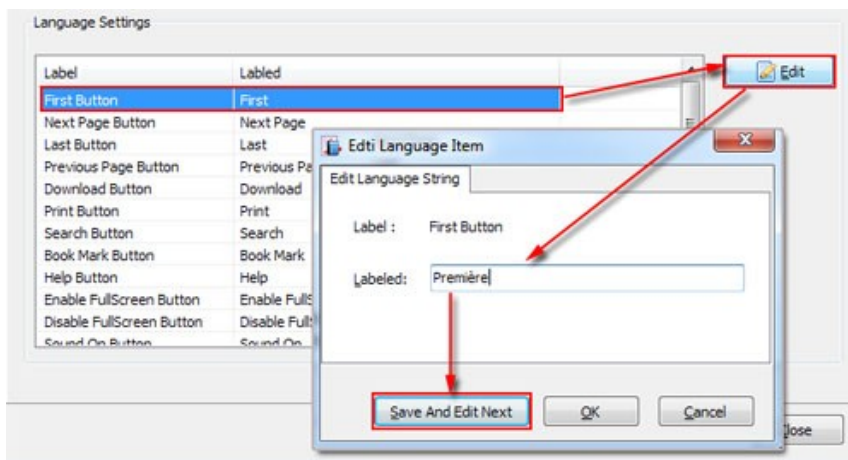

1. Click the button  and define name for the new language:

Click "OK" to save the new language in the list;

2. Choose the first label and click "Edit" icon, define new language text in "Labeled" box, then click "Save And Edit Next":

3. At last, you can get all Labels translated into your new language as the images shows:

Label	Labled
First Button	Première
Next Page Button	Page suivante
Last Button	Dernière
Previous Page Button	Page précédente
Download Button	Télécharger
Print Button	Imprimer
Search Button	Rechercher
Book Mark Button	Réservez Mark
Help Button	Aide
Enable FullScreen Button	Activer FullScreen
Disable FullScreen Button	Désactiver FullScreen
Sound On Button	Le Sound

You can delete unwanted language:

Or save your edited new language file as XML or TXT file:

Load language file saving before for current using:

VI. Upload Online

To make it easier for you to publish your created flip page books online, we developed the Upload Online Service. By using this service, you can upload your book online instantly after creating it, with no FTP or other upload tool needed. You can easily manage your books, and make it easy for people to view your books online in their browser on their PC, Mac, iPhone, iPad and Android devices.

After designing your book style, just click "Upload Online" button  to upload your book onto FlipBuilder website server directly. Just need 3 steps: Sign up, login your account, upload your book.

1. Sign Up

Create your account to use the Upload Service easily:

2. Login Account

After registration successful, you will login automatically.

3. Upload Your Book

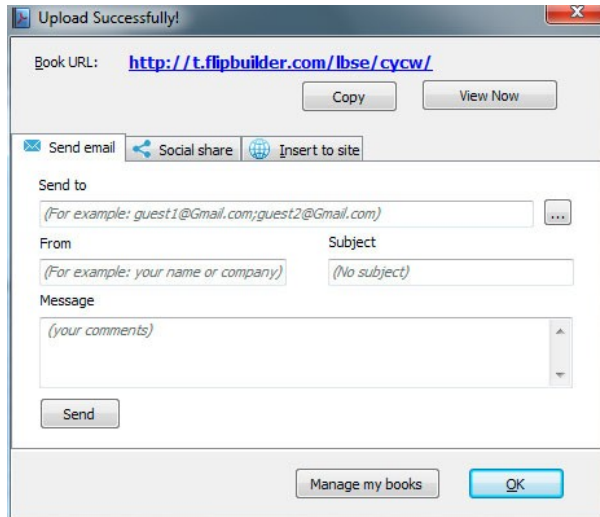

After login your account, just input your book HTML title and then click "Publish Now" to upload your book. You can also define Description and create mobile version in "More":

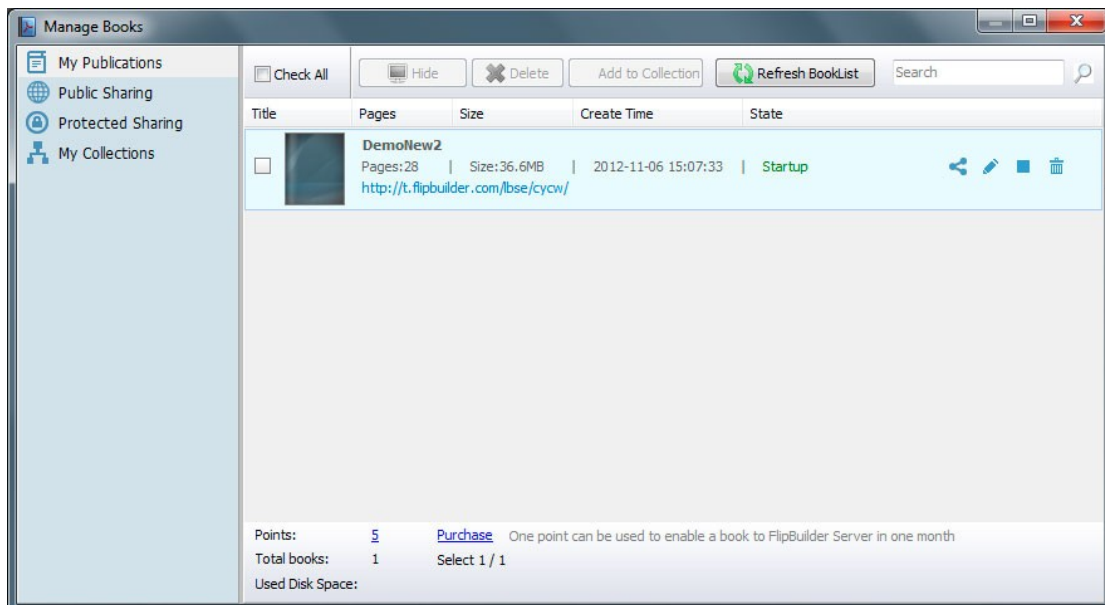

After uploading successfully, you can use the Book URL to share with others online, or through social share websites, or copy the Embed Code to insert into webpages in "Book Information" panel, etc.

PPT to Professional Page-Flipping eBook Utility User Document

You can click "Manage Online Books" button  in main process interface to manage your uploaded in below window:

In the book manage window, you can check your publications, share them with others, edit book info, hide your book to prevent other people from reading your book, even delete it if you want to edit again.

You will get 5 free points after registering, and a point can be used to upload a book within a month. You can purchase more points to use based on your needs, and more points purchase at a time, you can get order with more discount.

Within 24 hours of the first start service for each book will not charge, and a point will be deducted after the 24 hours. If you delete or disable the book within the month, the service center will stop charging you in later months, or if you enable the book again in the same month, you won't be charged again. Should be noted that, if you disable the books within

the first 24 hours, the system won't charge, but if you enable the books in the period after this 24 hours, the system will immediately charge points. And once your surplus points are not enough to pay for all books service, the system will enable related number of books, but disabled the other ones.

There is another charge method if you have dozens of even hundreds of books to upload a month, monthly charge \$9.99 to upload 1000 books a month. You can transfer to VIP User to pay monthly in the "Account Info" panel of online manage page:

<http://panel.flipbuilder.com/userLoad/accountInfo.php> .

More FAQs about Upload Service: <http://panel.flipbuilder.com/userLoad/faq.php>

VII. BookCase
